# Hungarian integrated online industrial property database

- Patent
- SPC
- Plant variety protection
- Utility model protection
- Design protection
- Trademark
- Geographical indication

## Content of the database

- Published information on Hungarian patents, supplementary protection certificates, plant variety protections, utility models, trademarks, geographical indications and designs, as well as on national or PCT, European or international applications for obtaining such titles of protection.
- Public official actions and validity data concerning the above-mentioned titles of protection.

## Updates

- The data of the database are updated monthly, validity data are updated weekly.
- The date of the last update is indicated on the main page of the database.

## Special features of the database

### Direct links

to [e-register](#) and [esp@cenet](#) patent, [Madrid Express](#) and [CTM-ONLINE](#) trademark, and [international classification systems](#) databases.

### Combined search possibilities

The titles of protection can be searched separately and together as well.

### Figure management

The figures of the hit list can be displayed beside each other, even if they belong to various titles of protection.

# Hungarian industrial property database

## ■ Patent

### Applications filed in the national way

(Sign in PIPACS: P)

Data of patents	1896 –
Communication of data on patent applications	1990 –
Publication data, characteristic figures, abstracts	1970 –
Abstract – in English – of applications with Hungarian priority	1990 – 1999
Abstract – in English – of published applications and granted patents	2000 –
Claims	1992 –
Complete specification and first page – facsimile	registration numbers 180 000 – 213 000
Complete specification – full text searchable	registration numbers 204 000 – 213 000 partly, above this wholly
Search report	1996 –
Official actions	1997 –
