

**ACT XI OF 1997 ON THE PROTECTION OF
TRADE MARKS AND GEOGRAPHICAL INDICATIONS**

In order to promote the development of Hungarian market economy, to improve competition conditions based on the use of signs capable of distinguishing goods and services, to assist the public in gathering information, and in conformity with the international and European Union law obligations of Hungary concerning the protection of intellectual property, the Parliament enacts the following Act on the Protection of Trade Marks and Geographical Indications:

PART I

PROTECTION OF TRADE MARKS

Chapter I

SUBJECT MATTER OF TRADE MARK PROTECTION

Signs capable of distinction

Article 1

(1) Trade mark protection shall be granted for any signs capable of being represented graphically provided that these are capable of distinguishing goods or services from those of other undertakings.

(2) Signs which may be granted trade mark protection are in particular:

- (a) words, combination of words, including personal names and slogans,
- (b) letters, numerals,
- (c) figures, pictures,
- (d) two- or three-dimensional forms, including the shape of goods or of their packaging,
- (e) colours, combination of colours, light signals, holograms,
- (f) sound signals, and
- (g) combination of signs under (a) to (f).

Absolute grounds for refusal

Article 2

(1) A sign may not be granted trade mark protection if it does not meet the requirements of Article 1.

(2) A sign shall be excluded from trade mark protection if:

(a) it is devoid of any distinctive character, in particular if it consists exclusively of signs or indications which may serve, in trade, to designate the kind, quality, quantity, intended purpose, value, geographical origin or the time of production of the goods or of rendering of the service, or other characteristics of the goods or services, or which have become customary in the current language or in the practices of trade;

(b) it consists exclusively of a shape which results from the nature of the goods themselves or which is necessary to obtain a technical result or which gives substantial value to the goods.

(3) A sign shall not be excluded from trade mark protection in accordance with paragraph (2)(a) if, either before or after the date of priority, it has acquired a distinctive character in consequence of the use which has been made of it.

Article 3

(1) A sign may not be granted trade mark protection if:

(a) it is contrary to public policy or to accepted principles of morality;

(b) it is liable to deceive public as to the nature, quality, geographical origin or other characteristics of the goods or services;

(c) its registration was applied for in bad faith.

(2) A sign shall be excluded from trade mark protection if:

(a) it consists of, or contains any of the emblems listed in Article 6^{ter}(1) of the Paris Convention for the Protection of Industrial Property, provided that

(aa) such a sign – if it is not a national flag – has been communicated according to Article 6^{ter}(3) and;

(ab) the sign – if it consists of or contains an official sign indicating control and warranty or a hallmark – its registration was applied not in respect of identical or similar goods as indicated with the official sign,

(b) it consists of badges, symbols or escutcheons, not covered by point(a), which are of public interest, or if it contains such badges, symbols or escutcheons;

(c) it consists exclusively of symbols having a close relation to religious or other beliefs.

(3) Trade mark protection shall be granted with the consent of the competent authority to signs which consist of or contain the emblems defined under paragraph 2(a) and (b).

(4) A sign may not be granted trade mark protection if it consists of or contains a geographical indication registered pursuant to this Act or to the law of the European Union. This provision shall apply to signs

(a) which shall not be registered as trade marks pursuant to the law of the European Union;

(b) which are used in connection with goods

(ba) which do not originate in a geographical area corresponding to the geographical indication or

(bb) to which the geographical indication shall not be used for any other reason on the basis of the provisions of this Act or of the law of the European Union.

Relative grounds for refusal

Article 4

(1) A sign may not be granted trade mark protection:

(a) with respect to identical goods or services, if the sign with the later date of priority is identical with an earlier trade mark;

(b) if because of its identity with or similarity to the earlier trade mark and the identity or similarity of the goods or services there exists a likelihood of confusion on the part of the public;

(c) with respect to dissimilar goods or services if the sign with the later date of priority is identical with or similar to an earlier trade mark having a reputation in the country where the use without due cause of the later sign would take unfair advantage of or be detrimental to the distinctive character or the repute of the earlier trade mark.

(2) “Earlier trade mark” means a trade mark whose registration was applied for with an earlier date of priority or – for the purposes of paragraph (1)(a) and (b) – a sign which has become well-known at an earlier date in the country under the Paris Convention for the Protection of

Industrial Property even if that sign is not registered. “Earlier trade mark” shall also mean – depending on the registration of the sign – an earlier trade mark application.

(3) A sign may not be refused trade mark protection if it conflicts with an earlier trade mark, which has not been used by the holder in accordance with the provisions of Article 18.

(4) For the purposes of this Act, the likelihood of confusion includes the likelihood of association with the earlier trade mark.

Article 5

(1) A sign may not be granted trade mark protection:

(a) if it would infringe earlier personal rights of others, in particular a right in a name or of personal portrayal;

(b) if it would conflict with an earlier copyright or industrial property right of others, including conflict with the name of a protected plant variety.

(2) A sign shall not be granted trade mark protection

(a) if it has been earlier used effectively in the country without registration where the use of the sign without the consent of the prior user would be contrary to law; and

(b) if, with respect to identical or similar goods or services, it is identical with or similar to a trade mark whose protection has lapsed by reason of expiration and less than two years have elapsed since the lapse, unless the earlier trade mark had not been used in conformity with the provisions of Article 18.

(3) In determining whether a right, use or expiration is deemed as earlier within the meaning of paragraphs (1) and (2), the priority of the application for registration shall be taken into account.

Article 6

A sign shall be excluded from trade mark protection if the representative or agent applies for registration in his own name without the holder’s authorization, unless the representative or agent justifies his action.

Declaration of consent

Article 7

(1) A sign may not be refused trade mark protection in accordance with Articles 4 and 5 if the holder of the earlier right consents to the registration of the later sign.

(2) A declaration of consent shall be valid if drawn up as an official document or a private document providing sufficient evidence.

(3) *[repealed]*

Registrability

Article 8

(1) Trade mark protection shall be granted for a sign if

(a) it satisfies the requirements of Article 1 and is not excluded from trade mark protection under the terms of Articles 2 to 7 and

(b) the relevant application complies with the requirements laid down by this Act.

Chapter II

RIGHTS AND OBLIGATIONS CONFERRED BY TRADE MARK PROTECTION

Right to trade mark protection

Article 9

(1) The right to the legal protection of a trade mark (hereinafter referred to as "trade mark protection") shall belong to the person who has made the trade mark registered according to the procedure prescribed by this Act.

(2) Any natural or legal person or a company without legal personality, irrespective of pursuing economic activities, may apply for trade mark protection.

(3) If two or more persons apply for registration jointly, trade mark protection shall belong to them jointly. Where two or more persons are entitled to the right, it shall be deemed to belong to them equally unless otherwise provided.

Establishment of trade mark protection

Article 10

Trade mark protection shall begin with registration and shall be effective retroactively from the date of filing of the application.

Term of trade mark protection

Article 11

(1) Trade mark protection shall have a term of 10 years beginning on the date of filing of the application.

(2) Trade mark protection shall be renewed for further periods of 10 years. In case of renewal, the new period of protection shall begin on the day following the date of expiration of the previous period.

Rights conferred by trade mark protection

Article 12

(2) On the basis of the exclusive right of use, the holder shall be entitled to prevent any person not having his consent from using in the course of trade:

(a) any sign identical with the trade mark in relation to goods or services which are identical with those for which the trade mark is registered;

(b) any sign where, because of its identity with or similarity to the trade mark and the identity or similarity of the goods or services, there exists a likelihood of confusion on the part of the public; or

(c) any sign which is identical with or similar to the trade mark in relation to goods and services which are not identical with or not similar to those for which the trade mark is registered, provided that the trade mark has a reputation in the country and the use of that sign without due

cause would take unfair advantage of, or would be detrimental to, the distinctive character or the repute of the trade mark.

(3) The following, in particular, shall be prohibited under paragraph (2):

- (a) affixing the sign to the goods or to the packaging thereof;
- (b) putting on the market or offering for sale the goods under that sign or stocking them for such purposes;
- (c) offering or supplying services under that sign;
- (d) importing or exporting the goods under the sign;
- (e) using the sign in business correspondence and in advertising.

Reproduction of trade marks in reference works

Article 13

If the reproduction of a trade mark in a dictionary, lexicon, encyclopaedia or similar reference work gives the impression that it constitutes the generic name of the goods or services for which the trade mark is registered, the publisher of the work shall, at the request of the holder of the trade mark, indicate – in the next edition of the publication at the latest – that the trade mark has been registered and is under trade mark protection.

Unlawful use of a trade mark by an agent or representative

Article 14

Where a trade mark is registered in the name of the agent or representative without the holder's authorization, the holder shall be entitled to oppose the unauthorized use of his trade mark by his agent or representative, unless the agent or the representative justifies his action.

Limitations of trade mark protection

Article 15

(1) Trade mark protection shall not entitle the holder to prohibit a third party from using in the course of trade and in accordance with the requirements of fair trade practice,

- (a) his own name or address;
- (b) indications concerning the kind, quality, quantity, intended purpose, value, geographical origin, the time of production of the goods or of rendering of the service, or other characteristics of the goods or service;
- (c) the trade mark where it is necessary to indicate the intended purpose of the goods or services, in particular in the case of accessories or spare parts.

(2) *[repealed]*

Exhaustion of the rights conferred by trade mark protection

Article 16

(1) Trade mark protection shall not entitle the holder to prohibit the use of the trade mark in relation to goods which have been put on the market in the European Economic Area by him or with his expressed consent.

(2) Paragraph (1) shall not apply where the holder has legitimate reasons to oppose further commercialisation of the goods, in particular where the condition of the goods has been changed or impaired.

Acquiescence

Article 17

(1) Where the holder has acquiesced, for a period of five successive years, in the use of a later trade mark in the country while being aware of such use, he shall no longer be entitled either to oppose the use of the later trade mark in the country or to request, on the basis of his earlier trade mark, the cancellation thereof [Article 33(2)(b)].

(2) Paragraph (1) shall only apply to goods or services in relation to which the later trade mark was put in genuine use.

(3) Paragraph (1) shall not apply where the later trade mark was applied for in bad faith.

(4) The holder of a later trade mark shall not be entitled to oppose the use of the earlier trade mark, even though the holder of the earlier trade mark may no longer oppose, on the basis of paragraph (1), the use of the later trade mark.

(5) The provisions of paragraphs (1) to (4) shall apply *mutatis mutandis* to earlier trade marks having a reputation, to trade marks that have become well-known in the country at an earlier date, as well as to earlier rights referred to in Article 5(1) and (2)(a).

Failure to use of trade marks

Article 18

(1) If, within a period of five years following the date of registration, the holder has not commenced genuine use of the trade mark in the country in connection with the goods or services for which it is registered, or if such use has been suspended during an uninterrupted period of five years, trade mark protection shall be subject to the legal consequences provided for in this Act [Article 4(3); Article 5(2)(b); Article 30(d); Article 33(2)(a); Article 34; Article 61/E; Article 73(2)], unless the holder duly justifies non-use.

(2) For the purposes of paragraph (1), the following shall also constitute genuine use of the trade mark in the country:

(a) use of the trade mark in a form differing from the registered form only in elements which do not alter the distinctive character;

(b) affixing of the trade mark to goods or to the packaging thereof in the territory of the country solely for export purposes.

(3) For the purposes of paragraph (1), use of the trade mark with the authorization of the holder shall be deemed to constitute use by the holder.

Chapter III

TRADE MARKS AND TRADE MARK PROTECTION AS OBJECTS OF PROPERTY

Succession in title

Article 19

(1) Rights deriving from a trade mark and from trade mark protection may be transferred and assigned.

(2) The successor in title to a legal person or to a company without legal personality shall also acquire the trade mark, unless otherwise provided by the parties or the circumstances clearly dictate otherwise.

(3) Trade mark protection may be assigned by contract. Trade mark protection may also be assigned in respect of some of the goods or services for which the trade mark is registered.

(4) The contract for the assignment of trade mark protection shall be null and void where the assignment is likely to mislead the public.

(5) Where a trade mark is applied for or is registered in the name of the agent or representative without the holder's authorization, the latter shall be entitled to demand the assignment in his favour of the right to trade mark protection or of the registration, unless the agent or the representative justifies his action.

Pledge

Article 20

Rights deriving from a trade mark and from trade mark protection may be pledged. A right of pledge shall only be constituted if the mortgage contract is made in writing and the right of pledge is entered in the Trade Mark Register.

Joint right to trade mark protection and joint trade mark protection

Article 21

(1) Where there are two or more holders of the same trade mark, each of the joint holders may exercise the rights conferred by trade mark protection over his own share. Where one joint holder wishes to dispose of his share, the other joint holders shall enjoy a right of preemption with respect to third parties.

(2) The trade mark may be used by any one of the joint holders alone; however, he shall be obliged to pay appropriate remuneration to the other joint holders, in proportion to their shares. For the purposes of Article 18, such use of the trade mark shall be deemed to constitute use by all of the holders.

(3) A license for the use of a trade mark may only be granted to a third party jointly by the joint holders. Collective consent may be replaced by a court judgement under the general provisions of civil law.

(4) In the event of doubt, the shares of all joint holders shall be deemed equal. If one of the joint holders surrenders his trade mark protection, the rights of the other joint holders shall extend to his share, in proportion to their own shares.

(5) Any one of the joint holders may also act individually to renew, enforce and protect trade mark rights. His legal acts - settlement, admission of claims and waiver of rights excepted - shall be binding on any other joint holder who has failed to observe a time limit or to perform a required act, provided that such other joint holder has not subsequently remedied his omission.

(6) Where the acts of the joint holders are divergent, a decision shall be taken having regard to all other relevant facts in the procedure.

(7) Costs relating to joint trade mark protection shall be borne by the joint holders in proportion to their shares. If, despite being notified, a joint holder does not pay the costs for which he is liable, the joint holder who has paid those costs may claim assignment to him of the share belonging to the joint holder having not met his obligations.

(8) The provisions concerning joint trade mark protection shall apply *mutatis mutandis* to joint trade mark applications.

Application of the provisions of the Civil Code

Chapter IV

TRADE MARK LICENSE CONTRACTS

Conclusion of trade mark license contracts

Article 23

(1) Under a trade mark license contract, the holder of trade mark protection licenses the right to use a trade mark and the licensee is required to pay royalties.

(2) The parties shall be free to determine the contents of the license contract. However, any license contract whose fulfilment is likely to mislead the public shall be null and void.

Rights and obligations of the parties

Article 24

(1) The holder shall be liable, for the whole duration of the license contract, that no third parties hold rights in the trade mark preventing or limiting exercise the right of use. Provisions of the Civil Code governing warranty of title shall apply *mutatis mutandis* to this liability, except that the licensee may, instead of withdrawal, terminate the contract with immediate effect.

(2) The holder shall inform the licensee of any third party rights in relation to the trade mark and of any other important circumstances. However, he shall be obliged to transfer economic, technical and organizational know-how only if this has been expressly agreed.

(3) The holder may control the licensee as to the quality of the goods bearing the trade mark or of the services supplied under the trade mark.

(4) The license contract shall cover all goods and services for which the trade mark is registered and every mode of use, to any extent whatsoever, without limitation in time or as to territory.

(5) A right of use shall be exclusive only if expressly stipulated by contract. In the case of an exclusive license, the holder may also use the trade mark in addition to the licensee who has acquired the right of use, unless expressly excluded by contract. The holder may terminate the exclusivity of a license, subject to a proportional reduction in the royalty, if the licensee does not begin use of the trade mark within a reasonable period of time under the given circumstances.

(6) The licensee may transfer the license or grant sub-licences to third parties only with the express consent of the holder.

Termination of license contracts

Article 25

The license contract shall terminate *ex nunc* when the contractual period expires or when certain specified circumstances occur or when the trade mark protection expires.

Effect of provisions relating to license contracts

Article 26

(1) The parties may derogate by mutual consent from the provisions relating to license contracts where not prohibited by law.

(2) [repealed]

Chapter V

INFRINGEMENT

Trade mark infringement

Article 27

(1) Any person who unlawfully uses a trade mark in contravention of the provisions of Article 12, commits trade mark infringement.

(2) The holder may, according to the circumstances of the case, have recourse to the following civil remedies:

(a) he may request that the fact of infringement be declared by the court;

(b) he may request an injunction that the infringer cease his infringement or any acts directly threatening with it;

(c) he may demand that the infringer give information on the identity of persons involved in the production and distribution of the infringing goods or the provision of infringing services and of their channels of distribution;

(d) he may demand satisfaction from the infringer by way of a declaration or by other appropriate means; if necessary, the declaration shall be made public by the infringer or at his expense;

(e) he may require surrender of the enrichment obtained by the infringement of the trade mark;

(f) he may request the seizure, the transfer to a specific person, the recall and the definitive removal from the channels of commerce, or destruction, of the infringing products and the packaging thereof, as well as of the means and materials exclusively or principally used for infringement.

(3) Where a trade mark is infringed, the holder may also claim damages under the rules of civil liability.

(4) The holder may submit the claim referred to in paragraph (2)(b) also against any person whose services were used in the infringing activities.

(5) The holder may submit the claim referred to in paragraph (2)(c) also against any person who

(a) was found in possession of the infringing goods on a commercial scale;

(b) was found to be using the infringing services on a commercial scale;

(c) was found to be providing on a commercial scale services used in infringing activities;

(d) was indicated by the person referred to in points (a) to (c) as being involved in the production or distribution of the infringing goods or the provision of the infringing services.

(6) For the purposes of paragraph (5)(a) to (c), the acts are carried out on a commercial scale if it is obvious from the nature and quantity of the infringing goods or services that these acts are carried out for direct or indirect economic or commercial advantage. In the absence of proof to the contrary, acts carried out by consumers in good faith shall not be regarded as acts carried out on a commercial scale.

(7) On the basis of paragraph (2)(c) and paragraph (5), the infringer or the person referred to in paragraph (5) may be required to provide, in particular, the following information:

(a) the names and addresses of the producers, distributors, suppliers and holders of the infringing goods or services, as well as the intended or involved wholesalers and retailers;

(b) the quantities produced, delivered, received or ordered of the infringing goods or services, as well as the prices obtained or given for the goods or services in question.

(8) At the request of the holder, the court may rule that the infringing nature of the means, materials, goods and packaging seized, recalled or definitively removed from the channels of commerce be removed or, where this is not possible, that they be destroyed. In justified cases, the court may order, in place of destruction, that the means and materials seized be auctioned according to the procedure of judicial execution; in such cases, the court shall decide how the sum obtained is to be used.

(9) Seizure of the means and materials used in infringing activities and of the infringing goods and packaging shall be admissible even if they are not in the possession of the infringer, but the holder knew or had reasonable grounds to know about the infringement.

(10) The court shall order the measures referred to in paragraph (2)(f) and paragraph (8) at the expense of the infringer, except when derogation therefrom is justified by the circumstances of the particular case. In ordering the recall and the definitive removal from the channels of commerce, or destruction, the court shall decide by taking into account the interests of third parties and by ensuring the proportionality of the measures to the seriousness of the infringement.

(11) At the request of the holder, the court may order that its decision be made public at the expense of the infringer. The court shall decide on the manner of the publicity. Publicity shall mean, in particular, publication in a national daily newspaper or on the Internet.

Customs law consequences of trade mark infringement

Article 28

Where a trade mark is infringed, the holder may, according to the provisions of specific legislation, request for action by the customs authorities to prevent infringing goods be put on the market.

Rights of the applicant and the licensee in the case of trade mark infringement

Article 29

(1) An applicant may also institute proceedings for trade mark infringement; however, the proceedings shall be suspended until the decision to register the trade mark has become final.

(2) A licensee recorded in the Trade Mark Register may institute proceedings for trade mark infringement in his own name if he has invited the holder to take appropriate action in order to stop the infringement and the holder has failed to take action within 30 days of the invitation.

Chapter VI

LAPSE OF TRADE MARK PROTECTION

Modes of lapse

Article 30

(1) Trade mark protection shall lapse:

(a) when its term expires without renewal (Articles 11 and 31), on the day following the date of expiration;

(b) if the holder surrenders the protection (Article 32), on the day following the date of receipt of the surrender or at an earlier date specified by the holder;

(c) if it is cancelled (Article 33), with retroactive effect to the date of filing of the application;

(d) if the holder has not put the trade mark to genuine use (Articles 18 and 34), with retroactive effect to the starting date of the procedure for a decision on revocation or to the date of priority of the conflicting later trade mark, whichever is earlier;

(e) if the trade mark loses its distinctive character or becomes deceptive (Article 35), with retroactive effect to the starting date of the procedure for a decision on revocation or to the date of priority of the conflicting later trade mark, whichever is earlier;

(f) in the event of dissolution of the holder legal person or company without legal personality [Article 9(2)] without a successor in title, with retroactive effect to the date of dissolution.

(2) Under paragraphs (1)(d) and (1)(e), at the request of either of the parties trade mark protection may also be revoked with retroactive effect to such an earlier date on which the grounds for filing the request for revocation occurred provided that the grounds for revocation existed at the earlier date specified and at the time of filing the request for revocation as well.

Partial lapse by reason of expiration of protection

Article 31

Where trade mark protection is renewed only in respect of some of the goods or services for which the trade mark has been registered, trade mark protection shall lapse by reason of expiration of protection in respect of the parts not covered by the renewal.

Surrender of trade mark protection

Article 32

(1) The holder entered in the Trade Mark Register may surrender his trade mark protection by a written declaration addressed to the Hungarian Intellectual Property Office.

(2) If the surrender affects the rights of third parties deriving from legislation, from rulings of an authority, from a license contract or from any other contract recorded in the Trade Mark Register, or if a lawsuit is recorded in the Trade Mark Register, it shall take effect only with the consent of the parties concerned.

(3) Surrender may be made in respect of some of the goods or services for which the trade mark is registered.

(4) Surrender of trade mark protection may not be withdrawn.

Cancellation

Article 33

(1) The trade mark shall be cancelled

(a) if the subject matter of the trade mark protection does not satisfy the requirements laid down in Article 8(a);

(b) if the subject matter of the trade mark protection differs from, or the list of goods or services extends beyond, the content of the application as filed at the accorded filing date or – in the case of division – the content of the divisional application;

(c) if the international trade mark application has been filed by a person not entitled to it under the Madrid Agreement or the Protocol Relating to the Madrid Agreement [Article 76/I(1)(a)].

(2) The trade mark may not be cancelled

(a) if it conflicts with an earlier trade mark [Article 4(2)] the use of which does not satisfy, at the time of filing of the request for cancellation, the requirements laid down in Article 18; or

(b) if it conflicts with an earlier trade mark, non-registered sign or any other rights whose holder was aware of the registration of the later trade mark and has acquiesced, for a period of five successive years, in the use of that trade mark, unless the holder of the later trade mark acted in bad faith.

(3) Where the grounds for cancellation exist in respect only of some of the goods or services for which the trade mark is registered, cancellation shall be pronounced in the form of a corresponding limitation of the protection.

(4) Should a request for cancellation be refused by a final decision, a new procedure for the cancellation of the same trade mark on the same grounds may not be instituted by any person.

Revocation by reason of non-use

Article 34

(1) Trade mark protection shall be revoked by reason of non-use in respect of all or some of the goods or services for which the trade mark is registered, depending on whether non-use exists in respect of all or some of the goods or services for which the trade mark is registered.

(2) Revocation of trade mark protection by reason of non-use shall not be declared if, during the interval between expiration of the period laid down in Article 18(1) and filing of the request for revocation by reason of non-use, the trade mark has been put in genuine use or such use has been resumed. This provision shall not apply where the commencement or resumption of use within a period of three months preceding the filing of the request occurs only after the holder becomes aware that a decision on revocation by reason of non-use will be requested.

(3) Should a request for revocation by reason of non-use be refused by a final decision, a new procedure for revocation of the same trade mark on the same grounds may not be instituted by any person.

Revocation by reason of loss of distinctive character or becoming deceptive

Article 35

(1) Trade mark protection shall be revoked

(a) if, in consequence of acts of the holder, the trade mark has become the common name in the trade for a product or service for which it is registered; or

(b) if, in consequence of use, the trade mark has become deceptive, particularly as to the nature, quality or geographical origin of the goods or services.

(2) Trade mark protection shall be revoked by reason of loss of distinctive character or becoming deceptive in respect of all or some of the goods or services for which the trade mark is registered, depending on whether the grounds for revocation exist in respect of all or some of the goods or services for which the trade mark is registered.

(3) Should a request for revocation by reason of loss of distinctive character or becoming deceptive be refused by a final decision, a new procedure for revocation of the same trade mark on the same grounds may not be instituted by any person.

Revocation by reason of dissolution of the holder without successor in title

Article 35/A

Should a request for revocation by reason of dissolution of the holder without successor in title be refused by a final decision, a new procedure for revocation of the same trade mark on the same grounds may not be instituted by any person.

Reclaiming of royalties

Article 36

If the trade mark protection lapses *ex tunc*, only the portion of the royalties paid to the holder that was not covered by the profits derived from the use of the trade mark may be reclaimed.

Pursuant to Article 108 of the e-Administration Act the Hungarian Intellectual Property Office shall ensure that as of 1 January 2018 all official matters falling within its competence can be dealt with in conformity with those laid down in the e-Administration Act. In accordance with this provision and by virtue of Article 120 of Act XI of 1997 on the Protection of Trade Marks and Geographical Indications (Trade Mark Act), the provisions of the Trade Mark Act effective on 31 December 2016 shall be applied to electronic communications until 31 December 2017. Consequently, Article 38(2a) of the Trade Mark Act shall be applied as of 1 January 2018.

(1) *[repealed]*

(2) The Hungarian Intellectual Property Office shall proceed and take its decisions in cancellation and revocation procedures at hearings held by a three-member board, except when the latter procedure is initiated due to the dissolution of the holder of the trade mark without a successor in title. Where a hearing must be held on an opposition filed against the registration of a trade mark in a trade mark registration procedure, a three-member board set up by the Hungarian Intellectual Property Office shall hold the hearing and take a decision. The board shall take its decisions by majority.

(3) Decisions of the Hungarian Intellectual Property Office shall take effect on service unless their review is requested.

(4) Decisions of the Hungarian Intellectual Property Office shall be served by a public notice if

(b) the mail is returned with a remark that the whereabouts or the address of the party are unknown.

(5) The public notice shall be published in the official journal and on the website of the Hungarian Intellectual Property Office on the same day. Decisions served by a public notice shall be considered delivered on the fifteenth day after the publication of the notice. In any other matters pertaining to the service of decisions by a public notice, the provisions of the Public Administration Procedures Act shall apply except that posting shall mean the publication of the public notice.

(6) Where the provisions of Article 44(1) apply, all decisions shall be delivered to the representative.

(7) The provisions of the Public Administration Procedures Act related to the publication of decisions shall not apply in trade mark matters.

Establishment of facts

Article 40

(2) In trade mark registration procedures, in the subject of opposition filed against the registration of a sign, in cancellation procedures and in revocation procedures, the Hungarian Intellectual Property Office shall examine the facts within the framework of the request and on the basis of the allegations and statements of the parties and the data verified by them.

(3) The decisions of the Hungarian Intellectual Property Office may only be based on facts or evidence on which the parties concerned have had an opportunity to present their comments; however, facts or evidence not submitted by the party in due time may be left out of consideration.

(3a) In procedures defined in paragraph (2), clients shall file their documents with the Hungarian Intellectual Property Office with a copy for each opposing party in the procedure plus one additional copy; if multiple clients have one common representative, one copy shall be taken into consideration. Each copy of the attachments of the request shall be attached to the other copies of the request. If the client filed the request or its attachments in copies less than prescribed by the law, in case of lack of rectification of the irregularities defined in paragraph (4), the opposition, the request for cancellation and the request for revocation shall be considered withdrawn, and the statement of the applicant or the holder of the trade mark shall be considered not to have been submitted.

(4) Together with a notice about the legal consequences of the omission, the parties shall be invited or notified to rectify the irregularities of documents submitted in trade mark matters.

(5) Public hearings shall not be held in trade mark matters.

Time limits

Article 41

(1) The time limits prescribed by this Act shall not be extended. Failing to comply with such time limits shall involve legal consequences without further notice.

(2) Where this Act does not prescribe any time limit to rectify irregularities or to submit a statement, a time limit of at least thirty days shall be fixed for the party, which may be extended on request before the expiration of the period. A time limit of more than three months and more than three extensions of a time limit may be granted only in particularly justified cases.

(4) In trade mark matters the filing date of documents submitted by post is the date on which the document was delivered to the Hungarian Intellectual Property Office. Documents delivered after the time limit set by the Hungarian Intellectual Property Office shall be deemed submitted in due time if the document was posted by registered mail before the expiration of the time limit, unless the document was delivered later than two months after the expiration of the time limit.

Restitutio in integrum

Article 42

(1) In trade mark matters – unless excluded under paragraph (5) – a request for *restitutio in integrum* may be submitted within 15 days of the unobserved date or of the last day of the unobserved time limit. The request must state the grounds for failing to comply and the circumstances showing that the failure to comply occurred without the requesting party's fault.

(2) Where the failure to comply became known to the party subsequently or the cause thereof ceased subsequently, the time limit shall be reckoned from the date on which the failure to comply became known or the cause thereof ceased. The request for *restitutio in integrum* shall be admissible only within six months from the date not complied with or the last day of the time limit not complied with.

(3) Where a time limit is not complied with, the omitted act must be carried out simultaneously with the filing of the request for *restitutio in integrum* or – if it is admissible – an extension of the time limit may be requested.

(4) If the Hungarian Intellectual Property Office grants *restitutio in integrum*, the acts carried out by the party in default shall be considered to have been performed within the time limit not complied with; a hearing held on the date not complied with shall be repeated where necessary. Depending on the outcome of the new hearing, it shall be decided whether the decision taken at the original hearing should maintain or should be revoked in whole or in part.

(5) *Restitutio in integrum* shall be excluded:

(a) in the event of failing to comply with the time limit prescribed for filing the declaration of priority [Article 53(2)];

(b) in the event of failing to comply with the time limit of six months fixed for claiming convention or exhibition priority;

Article 43

(1) Where legal proceedings are instituted with respect to the entitlement to file a trade mark application or to the right to trade mark protection, the trade mark procedure shall be suspended until the court decision becomes final. If deciding on the merits of a trade mark case depends on a previous consideration on such a matter in which the procedure falls within the competence of another authority, the Hungarian Intellectual Property Office shall suspend the trade mark procedure.

(2) In the event of the death of a party or the dissolution of a legal entity, the procedure shall be suspended until the successor in title is communicated and attested. If the successor in title is not communicated within a reasonable time according to the circumstances of the case, the Hungarian Intellectual Property Office shall terminate the procedure or shall decide on the basis of the material at its disposal.

(3) The Hungarian Intellectual Property Office shall suspend the trade mark procedure at the request of the party or *ex officio* if the case cannot be decided on solid grounds without a decision taken in another, closely connected procedure under its own competence.

(4) The trade mark registration procedure cannot be suspended at the request of the party, except where the provisions of paragraph (1) or (3) would apply.

(5) The suspension of the procedure shall interrupt all time limits, and the time limits shall recommence from the termination of the suspension.

(6) Even in case of suspension of the procedure, the Hungarian Intellectual Property Office may decide that the suspension shall not affect the ongoing procedural actions and the time limits determined for performing thereof.

(4) A trade mark application shall be refused in whole or in part if it does not meet the examined requirements even after the rectification of the irregularities or the submitting of comments. An application may be refused only on grounds that have been precisely and expressly stated and duly reasoned in the invitation. Where necessary, a further invitation shall be issued.

(5) If the applicant fails to reply to the invitation within the fixed time limit, the trade mark application shall be considered withdrawn.

(6) Simultaneously with the forwarding to the court of the request for reviewing the decision on the partial refusal of the trade mark application [Article 77(9) and (10)], the registration procedure shall be suspended with respect to the remaining part of the list of goods or services until the final termination of the court proceedings.

(7) On the basis of substantive examination carried out *ex officio*, the registration procedure shall be continued with respect to the remaining part of the list of goods or services after the decision on the partial refusal of the trade mark application has become final.

(4) An opposition fee determined by specific legislation shall be paid within one month from the date of filing of the notice of opposition.

(5) If the opposition does not comply with the requirements laid down in paragraphs (1) to (3), the opponent shall be invited to rectify the irregularities; if the opposition fee has not been paid, he shall be invited to make payment within the time limit prescribed by this Act. Failing to comply with these requirements, the opposition shall be considered withdrawn.

Article 61/C

The opponent shall be a party to the procedure for the registration of a trade mark in the subject matter of the opposition.

Article 61/D

(1) The Hungarian Intellectual Property Office shall invite the applicant to submit comments on the opposition. Except for the case referred to in paragraph (2), it shall decide on the registration of the trade mark following the written preparatory work. The order terminating the procedure may also be taken without a hearing.

(2) Following the written preparatory work, the Hungarian Intellectual Property Office shall hold a hearing if the applicant and the opponent must be heard together in order to clarify the facts or if any of the parties so requests in due time.

(3) If the applicant fails to submit comments within the fixed time limit or to appear at the hearing, the Hungarian Intellectual Property Office shall decide on the opposition on the basis of the evidence at its disposal.

(8) Following the expiry of the time limit prescribed for filing a notice of opposition [Article 61/B(1) and (2)] no grounds may be indicated as grounds for opposition which have not been stated as such within the time limit referred to. When delivering its final decision, the Hungarian Intellectual Property Office shall not take into consideration the grounds so specified.

Article 61/E

(1) If the opposition is based on conflict with an earlier trade mark, the burden of proof that the use of the opposing party's trade mark met the requirements of Article 18 at the date of the publication of the trade mark application shall be on the opponent. At the request of the applicant filed in due time the Hungarian Intellectual Property Office shall invite the opponent to furnish such proof.

(2) A trade mark application may not be refused on the basis of an opposition in respect of which the furnishing of proof referred to in paragraph (1) was unsuccessful.

(3) Where the opponent does not reply to the invitation referred to in paragraph (1), the notice of opposition shall be considered withdrawn.

Article 61/F

In the subject matter of the opposition settlement may be reached.

Article 61/G

(1) If there is more than one notice of opposition in respect of the same trade mark application, they shall be dealt with in the same procedure.

(2) If there is more than one notice of opposition in respect of the same trade mark application, the procedure may be suspended with respect to some of the oppositions. Review of an order suspending the procedure in such case [Article 77(1)] cannot be requested from the court separately, it may only be contested in a request for the review of a decision on the registration of the trade mark. The order suspending the procedure in such case shall, if necessary, specify the costs of the opponent arising until the suspension of the procedure.

(3) If, in the trade mark registration procedure, a decision refusing the application becomes final, the opposition in respect of which the procedure have been suspended shall be considered withdrawn. Otherwise the procedure shall be continued on the basis of the opposition in respect of which the procedure has previously been suspended.

(2) A trade mark application shall be refused in whole or in part if it does not meet the requirements examined under paragraph (1).

(3) The losing party shall be required to bear the costs arising in connection with the opposition; the opponent shall not be deemed as a losing party if under Article 61/G(3) the opposition shall be considered withdrawn.

(2) The applicant shall be entitled to amend the list of goods or services as laid down in paragraph (1)(b) until the day on which the decision on the registration of the trade mark is delivered.

Article 63

(1) The applicant may divide the application until the day on which the decision on the registration of the trade mark is delivered,

(a) prior to the official invitation to this effect [Article 59(2)], if he claimed protection for more than one sign in one application; or

(b) if, by dividing the list of goods or services, he claims protection for specified goods or services separately.

(2) A fee determined by specific legislation shall be paid for division within two months from the filing of the relevant request.

(3) If the fee for division is not paid upon filing the request, the Hungarian Intellectual Property Office shall invite the applicant to rectify the irregularity within the time limit in paragraph (2). Failing to comply with the said invitation, the request for division shall be considered withdrawn.

(4) The request for division shall be refused if an opposition to the registration of a trade mark is filed and the division of the application separates the part of the list of goods or services against which the opposition has been directed.

Registration of the trade mark

Article 64

(1) If the trade mark application and the sign to which it relates meet all the requirements of the examination [Article 61(2) and Article 61/H(1)], the Hungarian Intellectual Property Office shall register the subject matter of the application as a trade mark. The date of the decision on registration shall be the date of registration of the trade mark.

(d) the filing fee shall be paid within the time limit laid down in paragraph (2).

(7) If the applicant so requests specially in the request for accelerated procedure, the Hungarian Intellectual Property Office shall register the sign as a trade mark simultaneously with the publication of the trade mark application (particularly accelerated procedure), except that the provisions of Article 64(3) shall only apply after the expiry of the time limit prescribed for filing a notice of opposition [Article 61/B(1) and (2)]. A request for particularly accelerated procedure may only be filed within the time limit laid down in paragraph (1) for the filing of a request for accelerated procedure; the fee for the requested for particularly accelerated procedure is one and a half times higher than that for the accelerated procedure.

(8) If a notice of opposition to the registration of the sign as a trade mark is filed, the decision ordering the registration of the trade mark under paragraph (7) shall be withdrawn and the registration procedure shall be continued. Withdrawal of the decision ordering the registration of the trade mark under paragraph (7) shall be recorded in the Trade Mark Register, and relevant information shall be given in the official journal of the Hungarian Intellectual Property Office.

Failing to comply with these requirements, the request for cancellation shall be considered withdrawn.

Article 73

Following the written preparatory work, it shall decide at a hearing on the cancellation of the trade mark, on limitation of the trade mark protection or refusal of the request. The order terminating the procedure may also be taken without a hearing. Following the expiration of the time limit fixed by the Hungarian Intellectual Property Office for the requesting party, no grounds may be indicated as grounds for cancellation, which have not been stated as such within the time limit referred to. When delivering the final decision, the grounds so specified shall not be taken into consideration.

(2) If the request for cancellation is based on conflict with an earlier trade mark of the requesting party, the burden of proof that the use of his trade mark met the requirements of Article

(3) The losing party shall be required to bear the costs of the cancellation procedure. If the holder of the trade mark has not provided any grounds for the cancellation procedure and he surrenders the trade mark protection – at least in respect of the concerned part of the list of the goods or services – with retroactive effect to the date of filing prior to the expiration of the time limit for submitting comments [Article 73 (1)], the costs of the procedure shall be borne by the requesting party.

(4) The cancellation of the trade mark or limitation of trade mark protection shall be recorded in the Trade Mark Register and relevant information shall be given in the official journal of the Hungarian Intellectual Property Office.

Following the written preparatory work, it shall decide at a hearing on the revocation of trade mark protection, in whole or in part, by reason of non-use, loss of distinctive character, becoming deceptive or dissolution of the holder without successor in title or on the refusal of the request. The order terminating the procedure may also be taken without a hearing. The Hungarian Intellectual Property Office shall take its decisions without a hearing on the revocation of trade mark protection by reason of the dissolution of the holder without a successor in title. Article 73(5) to (7) shall apply to the pronouncement, putting in writing and delivery of decisions taken in the course of hearings.

(2) If there is more than one request for revocation of the same trade mark, or there are requests for both the cancellation and for the revocation of the same trade mark, they shall be dealt with in the same procedure, if possible.

(3) If the request for revocation is withdrawn, the procedure may be continued *ex officio*. In such case, the Hungarian Intellectual Property Office shall also proceed within the framework of the request, taking into consideration the statements and allegations made by the parties earlier.

(4) The losing party shall be required to bear the costs of the procedure for revocation. The costs of the procedure for revocation by reason of dissolution of the holder without successor in title shall, however, be borne by the requesting party. If the holder of the trade mark has not provided any grounds for the procedure for revocation and he surrenders the trade mark protection – at least in respect of the concerned part of the list of the goods or services – with retroactive effect to the date of filing prior to the expiration of the time limit for submitting comments under paragraph (1), the costs of the procedure shall be borne by the requesting party.

(5) The revocation of the trade mark protection, in whole or in part, by reason of non-use, loss of distinctive character, becoming deceptive or dissolution of the holder without successor in title shall be recorded in the Trade Mark Register and relevant information shall be given in the official journal of the Hungarian Intellectual Property Office.

INTERNATIONAL TRADE MARK APPLICATIONS FILED UNDER THE AGREEMENT

Applications filed through the intermediary of the Hungarian Intellectual Property Office

Article 76/J

(1) The holder of a trade mark registered by the Hungarian Intellectual Property Office may file – under the Agreement – an international trade mark application through the Hungarian Intellectual Property Office as Office of origin.

(2) The Hungarian Intellectual Property Office shall forward the international trade mark application with respect to which the applicant:

(a) has a real and effective industrial or commercial establishment in the country; or failing this

(b) has his domicile in the country; or failing this

(c) is of Hungarian nationality.

(3) The international trade mark application shall be filed with the Hungarian Intellectual Property Office as Office of origin in compliance with the formal requirements, in the manner and in the language prescribed by the Agreement.

(4) If the international trade mark application is filed before the registration of the trade mark referred to in paragraph (1), the date of registration of the trade mark shall be considered as date of filing.

(5) At the invitation of the Hungarian Intellectual Property Office the applicant shall certify that he is entitled to file an international trade mark application under paragraph (2). Failing to comply with the said invitation, the Hungarian Intellectual Property Office shall refuse the request to forward the international application.

Article 76/K

(1) Prior to forwarding the international trade mark application, the Hungarian Intellectual Property Office shall examine:

(a) whether the application contains the registration number of the trade mark referred to in Article 76/J(1);

(b) whether the application contains a request to forward the international application, information identifying the applicant, a representation of the sign and a list of goods or services;

(c) whether the data of the application are in compliance with the data of the trade mark referred to in Article 76/J(1) as appearing in the Trade Mark Register;

(d) whether the application contains designation of the countries to the territory of which the extension of protection is claimed;

(e) whether the application has been filed in the language and in the manner prescribed by the Agreement;

(f) whether the application is signed by the applicant or the representative.

(2) Where the application does not comply with the requirements of paragraph (1)(a) to (c) and (f) – except for the case when the list of goods or services of the application is narrower than the list of goods or services of the trade mark referred to in Article 76/J(1) – the Hungarian Intellectual Property Office shall invite the applicant to rectify the irregularities. The applicant shall be notified that if the application is not received by the International Bureau within two months following the filing of the request, the date of the international registration shall not be the date of the filing of the request, but the date of the receipt of the international application by the International Bureau.

(3) Where the invitation to rectify the irregularities under paragraph (1) has no result, the Hungarian Intellectual Property Office shall refuse the request to forward the international trade mark application.

(4) Where the application does not comply with the requirements of paragraph (1)(d) and (e), the Hungarian Intellectual Property Office shall invite the applicant to rectify the irregularities. Failing to comply with the said invitation, the application shall be forwarded to the International Bureau as filed by the applicant.

Article 76/L

(1) For the forwarding of the international trade mark application a forwarding fee determined by specific legislation shall be paid to the Hungarian Intellectual Property Office, and in connection with the international application the international fee determined by the Agreement shall be paid to the International Bureau.

(2) The forwarding fee referred to in paragraph (1) shall be due on the date of filing of the international trade mark application. If the fee is not paid within one month following the due date, the request to forward the international trade mark application shall be considered withdrawn.

(3) The international fee referred to in paragraph (1) shall be paid directly to the International Bureau within the time limit and in the manner prescribed by the Agreement.

(4) In the case of international trade mark applications filed through the intermediary of the Hungarian Intellectual Property Office the date and number of the international registration shall be recorded in the Trade Mark Register.

Subsequent extension, through the intermediary of the Hungarian Intellectual Property Office, of protection resulting from the international registration

Article 76/M

(1) Where the Hungarian Intellectual Property Office is the Office of the Contracting State of the holder of an international registration, a subsequent extension of the protection resulting from the international registration may be requested through the intermediary of the Hungarian Intellectual Property Office.

(2) The request for the subsequent extension of protection shall be filed in compliance with the formal requirements, in the manner and language prescribed by the Agreement.

(3) Prior to forwarding the request for subsequent extension, the Hungarian Intellectual Property Office shall examine:

(a) whether the request contains a request to forward it and whether it is signed by the holder or the representative;

(b) whether the request has been filed in the manner prescribed by the Agreement.

(4) Where the request for the subsequent extension of protection does not comply with the requirements of paragraph (3)(a), the Hungarian Intellectual Property Office shall invite the requesting party to rectify the irregularities. Failing to comply with the said invitation, the Hungarian Intellectual Property Office shall refuse the said request.

(5) Where the request for the subsequent extension of protection does not comply with the requirements of paragraph (3)(b), the Hungarian Intellectual Property Office shall invite the requesting party to rectify the irregularities. Failing to comply with the said invitation, the request for the subsequent extension of protection shall be forwarded to the International Bureau as filed by the requesting party.

(6) The provisions of Article 76/L shall apply *mutatis mutandis* with respect to the request for the subsequent extension of protection.

(7) The provisions of paragraphs (1) to (6) shall apply *mutatis mutandis*, if a request for recordal, in the international register, of a change relating to the international trade mark application or the protection resulting from the international registration is filed under the Agreement through the intermediary of the Hungarian Intellectual Property Office.

Applications designating Hungary

Article 76/N

(1) An application designating Hungary shall have the same effect as a trade mark application duly filed with the Hungarian Intellectual Property Office from the date of the international registration under Article 3(4) of the Agreement or of the subsequent extension of protection resulting from the international registration under Article 3^{ter}(2) of the Agreement.

(2) The international registration effected on the basis of an application designating Hungary shall result in protection – from the date laid down in paragraph (1) – to the same effect as registration under Article 64 if the Hungarian Intellectual Property Office does not refuse, under Article 5(1) and (2) of the Agreement, protection of the sign extended to Hungary or withdraws the refusal.

(3) The provisions relating to applications designating Hungary shall apply *mutatis mutandis* if subsequent extension, to Hungary, of protection resulting from the international registration is requested.

(4) Following international registration on the basis of an application designating Hungary, the Hungarian Intellectual Property Office shall make available for inspection its contents as published and shall ensure access to the entries of the international register relating to the application.

Article 76/O

(1) Publication of an application designating Hungary shall be made by publishing the following data of the international trade mark application:

- (a) the sign;
- (b) the number of the international registration;
- (c) the date of publication in the Gazette of the International Bureau and the issue of the Gazette containing the publication.

(2) The Hungarian Intellectual Property Office shall publish the application designating Hungary under paragraph (1) after notification of the international registration.

Article 76/P

(1) The Hungarian Intellectual Property Office shall draw up the search report under Article 60 and shall carry out the substantive examination under Article 61 with respect to the application designating Hungary.

(2) The Hungarian Intellectual Property Office shall send the search report to the applicant through the intermediary of the International Bureau.

(3) For the purposes of Article 61/B(1), the time limit of opposition relating to an application designating Hungary shall be reckoned from the date of publication under Article 76/O(1).

(4) If the international trade mark application does not meet the requirements examined under Article 61(2), or an opposition has been filed against it, the International Bureau shall be notified in the manner and within the time limit laid down by the Agreement (provisional refusal). In the notification a time limit of at least three months shall be fixed for submitting comments, which can be extended upon a request filed before expiration.

(5) Where the applicant does not reply to the invitation within the fixed time limit, the Hungarian Intellectual Property Office shall notify the International Bureau – except when paragraph (5)(a) is applicable – that the protection of the trade mark extending to Hungary is refused (final refusal), or that protection is only partially recognised by the Hungarian Intellectual Property Office. The Hungarian Intellectual Property Office shall send notifications to the International Bureau after the decision on final refusal or on partial recognition of the protection has become final. Where trade mark protection is recognised in part, the date of registration shall be considered to be the date of the decision.

(5a) Where the applicant does not reply, within the fixed time limit, to an invitation issued by the Hungarian Intellectual Property Office solely on the basis of an opposition, the Hungarian Intellectual Property Office shall decide on the registration of the trade mark on the basis of the

available information, and shall notify the International Bureau accordingly, sending either a notification on the final refusal or a notification made in accordance with paragraph (5)(e).

(5b) Where the applicant replies to the invitation, the Hungarian Intellectual Property Office shall continue the substantive examination and shall decide on the registration of the trade mark on the basis thereof. If the trade mark application must be refused on the basis of the substantive examination [Article 61(4), Article 61/H(2)], the Hungarian Intellectual Property Office shall notify the International Bureau that the protection of the trade mark extending to Hungary is refused (final refusal) after the decision on it has become final.

(5c) Where the Hungarian Intellectual Property Office does not issue any notice of provisional refusal and sends no notification to the International Bureau on the basis of paragraph (5d), either, the date of registration shall be considered to be the first day after the expiration of the time limit prescribed for provisional refusal.

(5d) Where the Hungarian Intellectual Property Office finds before the expiration of the time limit prescribed for provisional refusal that it is inadmissible to issue any provisional refusal, it shall notify the International Bureau without delay of the recognition of the protection. The date of registration shall be considered to be the date of the notification on the recognition of the protection.

(5e) Where the Hungarian Intellectual Property Office withdraws the provisional refusal in whole or in part after the substantive examination, it shall notify the International Bureau of the recognition of the protection in whole or in part after the decision on withdrawal has become final. The date of registration shall be considered to be the date of the decision on withdrawal.

(6)-(7) *[repealed]*

(8) By applying the provisions of Article 48 *mutatis mutandis*, the Hungarian Intellectual Property Office shall record in the Trade Mark Register that under Article 4^{bis} of the Agreement the international registration has replaced the trade mark registered by the Hungarian Intellectual Property Office.

Refusal of the effect of an assignment and of a licence contract

Article 76/R

(1) Where the Hungarian Intellectual Property Office considers that an assignment or a licence contract recorded in the international register with respect to the protection resulting from the international registration and extending to the territory of Hungary is contrary, in part or in whole, to the provisions of this Act, it shall notify the applicant, through the intermediary of the International Bureau, in the manner and within the time limit prescribed by the Agreement.

(2) The notification that the change shall have no effect shall indicate the reasons for and the extent of refusal.

Invalidation of an international trade mark

Article 76/S

For the purposes of this Act, invalidation of an international trade mark referred to in Article 5(6) of the Agreement shall mean the cancellation of the trade mark and the revocation of trade mark protection.

Supplementary Register

Article 76/T

The Hungarian Intellectual Property Office shall keep a Supplementary Register with respect to applications designating Hungary, which shall contain all facts and circumstances that cannot be recorded in the international register under the Agreement.

Chapter X/D

Article 76/U

(1) The applicant of a trade mark application filed with the Hungarian Intellectual Property Office and the holder of a trade mark registered by the Hungarian Intellectual Property Office may file – under the Protocol – an international trade mark application through the Hungarian Intellectual Property Office as Office of origin.

(2) If the international trade mark application is filed before the registration of the trade mark referred to in paragraph (1), the applicant may declare that he wishes to file the international trade mark application on the basis of the trade mark referred to in paragraph (1). In this case the date of registration of the trade mark shall be considered as the date of filing.

(3) The Hungarian Intellectual Property Office shall forward the international trade mark application with respect to which the applicant:

- (a) is of Hungarian nationality, or
- (b) has his domicile in the country; or
- (c) has a real and effective industrial or commercial establishment in the country.

(4) The international trade mark application shall be filed with the Hungarian Intellectual Property Office as Office of origin in compliance with the formal requirements, in the manner and – at the option of the applicant – in one of the languages prescribed by the Protocol.

(5) The provisions of Article 76/J(5) and Articles 76/K to 76/M shall apply *mutatis mutandis* to international trade mark applications filed under the Protocol, provided that any reference to the Agreement shall be construed as a reference to the Protocol.

Application of provisions concerning international trade mark applications filed under the Agreement

Article 76/V

The provisions of Articles 76/N to 76/T shall apply *mutatis mutandis* to international trade mark applications filed under the Protocol, provided that any reference to the Agreement shall be construed as a reference to the Protocol.

Transformation of an international registration into national application

Article 76/Z

(1) The request for transformation under Article 9^{quinquies} of the Protocol shall be filed with the Hungarian Intellectual Property Office within three months from the date on which the international registration was cancelled.

(2) The Hungarian translation of the list of goods or services shall be filed within four months following the filing of the request for transformation and the transformation fee amounting to a proportion, determined by specific legislation, of the filing fee shall be paid within two months. Failing to comply with these, the request for transformation shall be considered withdrawn.

(3) In any other matter pertaining to the request for transformation, the provisions of Chapters VII to IX shall apply *mutatis mutandis*; if, however, the international registration is cancelled after one of the dates of registration referred to in Article 76/P(5) and (5c)-(5e), the Hungarian Intellectual Property Office shall register the trade mark without applying the provisions of Articles 61 to 63. In this case, the date referred to in Article 76/P(5) and (5c)-(5e) shall be the date of registration.

PART V

COURT PROCEEDINGS IN TRADE MARK MATTERS

Chapter XI

REVIEW OF DECISIONS OF THE HUNGARIAN INTELLECTUAL PROPERTY OFFICE

Request for review

Article 77

(1) Upon request, the court may review the Hungarian Intellectual Property Office's

(a) decisions referred to in Article 46/A(3);

(b) decisions suspending the procedure or furnishing a basis for entries in the Trade Mark Register;

(c) orders excluding or limiting the inspection of files, against which independent legal remedy is admissible under the provisions of Public Administration Procedures Act;

(d) orders denying persons the legal status as a party to the procedure apart from those who have filed request for the commencement of a procedure;

(e) decisions imposing procedural fines or ruling on the amount and on the apportionment of procedural costs.

(2) A request for review brought against a decision imposing procedural fine or ruling on the amount and on the apportionment of procedural costs shall have no delaying force with respect to any other provisions of the decision not contested in the request for review, and shall not prevent them from becoming final.

(3) Any order of the Hungarian Intellectual Property Office not referred to in paragraph (1) may only be contested in a request for the review of the decisions referred to in paragraph (1).

(4) Review of a decision may be requested by:

(a) any party to the procedures before the Hungarian Intellectual Property Office;

(b) any person excluded from, or limited in, the inspection of files;

(c) any person whose legal status as a party to the procedure has been denied.

(5) Review of a ruling on the registration and cancellation of a trade mark may be requested by the public prosecutor under Article 3(1)(a) and (b) and Article 3(2). Any other participant to the

procedures before the Hungarian Intellectual Property Office may file, in his own right, an independent request for review of the decision or a provision thereof relating to him.

(6) The request for review must be filed or posted by registered mail, with the exceptions laid down in paragraphs (7) and (8), within thirty days from the date of communication of the decision to the party concerned or to any other participant to the procedure.

(7) The time limit of thirty days for the filing of a request for review shall be reckoned from the communication of the order refusing, or considering not to have been filed, the request for *restitutio in integrum*, if

(a) that date is later than the date of communication of the decision under paragraph (6), and

(b) the request for *restitutio in integrum* was filed to remedy an omission, which served directly as a basis for the decision under paragraph (6).

(8) If the review of a decision of the Hungarian Intellectual Property Office is requested on the basis of a decision taken by the Constitutional Court under the provisions of the Public Administration Procedures Act, the time limit for filing a request for review shall open again for thirty days from the service of the decision of the Constitutional Court.

(9) The request for review shall be filed with the Hungarian Intellectual Property Office, which shall forward it, together with the documents of the trade mark file, to the court within fifteen days except for the case provided for in paragraph (10). Where an opposing party took part in the procedure, the Hungarian Intellectual Property Office shall simultaneously notify that party of the forwarding of the request.

(10) If the request for review raises legal questions of fundamental importance, the Hungarian Intellectual Property Office may make a written statement about that question and shall forward it, together with the request for review and the documents of the trade mark file, to the court within thirty days.

(11) The rules concerning actions shall apply *mutatis mutandis* to the requirements for a request for review.

(12) In the case of a request for review filed late, the court shall decide on the request for *restitutio in integrum*.

Jurisdiction and competence

Article 78

(1) In proceedings for the review of decisions taken by the Hungarian Intellectual Property Office, the Metropolitan Court of Justice shall have jurisdiction and exclusive competence.

(2) The Metropolitan Court of Justice shall sit in a chamber consisting of three professional judges.

(3) *[repealed]*

Rules governing proceedings concerning requests for review

Article 79

The court shall hear requests for the review of decisions taken by the Hungarian Intellectual Property Office in accordance with the rules of non-contentious civil procedure, subject to the exceptions mentioned in this Act. Unless this Act or the non-contentious nature of the procedure indicates otherwise, the rules of Act III of 1952 on the Code of Civil Procedure (hereinafter referred to as “the Code of Civil Procedure”) shall apply to the proceedings *mutatis mutandis*.

Publicity

Article 80

The court may, at the request of a party, exclude the public from the hearing notwithstanding the fact that the requirements prescribed in the general provisions of the Code of Civil Procedure may not be fulfilled.

Exclusion

Article 81

(1) In addition to the cases determined in the general provisions of the Code of Civil Procedure, the following persons shall be excluded from participating in the proceedings or from acting as judges:

(a) persons who participated in taking the decision of the Hungarian Intellectual Property Office;

(b) relatives, as defined in the general provisions of the Code of Civil Procedure relating to the exclusion of judges, of a person mentioned under point(a), above.

(2) The provisions of paragraph (1) shall also apply to persons drawing up the minutes and to experts.

Parties to the proceedings and other participants

Article 82

(1) The person who filed the request shall be a party to the court proceedings. The public prosecutor instituting proceedings shall be entitled to all the rights to which a party is entitled, except that he may not agree to a settlement, admit claims or waive any right.

(2) Where an opposing party has also taken part in the procedure before the Hungarian Intellectual Property Office, the court proceedings shall be initiated against that party.

Article 83

Where a holder of a joint protection acts independently to maintain and protect trade mark rights, or proceedings have been initiated against only one of the joint holders, the court shall notify the other joint holders that they may join the proceedings.

Article 84

(1) Any person having a legal interest in the outcome of the proceedings for review of decisions taken by the Hungarian Intellectual Property Office may intervene in the proceedings in favour of the party whose interests he shares until the court decision becomes final.

(2) Save for settlement, admission of claims and waiver of rights, the intervenor may take any action which the party he supports is entitled to take, except that his acts shall have effect only where they do not conflict with the acts of the party concerned.

(3) Any legal dispute between the intervenor and the party concerned may not be decided in the course of the proceedings.

Representation

Article 85

- (1) Patent attorneys may also act as representatives in proceedings.
- (2) As to the validity of a power of attorney given to a patent attorney or an attorney-at-law either in the country or abroad, the signature by the principal shall be sufficient.

Costs of proceedings

Article 86

- (1) Where an opposing party also takes part in the court proceedings, the provisions on litigation costs shall apply *mutatis mutandis* to the advance and payment of the costs of proceedings.
- (2) In the absence of an opposing party, the applicant shall advance and meet the costs.
- (3) The expenses and fees of the patent attorney representing the party shall be added to the costs of proceedings.

Omission

Article 87

Where neither the applicant nor any of the parties appear at the hearing or where none of the parties respond to the invitation of the court in the fixed time limit, the court shall decide on the request on the basis of the material at its disposal.

Restitutio in integrum

Article 88

The provisions of Article 42 shall apply *mutatis mutandis* to the submission of a request for *restitutio in integrum* in non-contentious proceedings.

Measures on the basis of the request

Article 88/A

If the Hungarian Intellectual Property Office has made a written statement concerning the request for review [Article 77(10)], the chairman of the proceeding chamber shall inform the party or parties of this statement in writing.

Hearing and taking of evidence

Article 89

- (1) The court of first instance shall take evidence and shall hold its hearings in accordance with the provisions of the Code of Civil Procedure.
- (2) If no opposing party takes part in the proceedings and the case can be settled on the basis of documentary evidence, the court may take a decision without a hearing, but the party shall be heard at his request.

(3) Should the court consider the case without a hearing, but finds during the proceedings that a hearing is necessary, it may at any time order such hearing. However, where the court considers the case at a hearing, or has ordered a hearing, it may not revoke such order and consider the case without a hearing.

(4) Settlement may not be reached in the court proceedings if such settlement was not admissible in the procedure before the Hungarian Intellectual Property Office.

Decisions

Article 90

The court shall decide both on the merits of a case and on other matters by an order.

Article 91

(1) If the court alters a decision taken in a trade mark case, its order shall replace the decision of the Hungarian Intellectual Property Office. In place of reviewing the decision in a trade mark matter the court shall repeal the decision and order the Hungarian Intellectual Property Office to continue the procedure if the request for review was filed against a decision refusing, withdrawing or considering withdrawn a trade mark application, in the absence of which continuation of the registration procedure at the Hungarian Intellectual Property Office would have been admissible.

(2) The court shall repeal the decision and order the Hungarian Intellectual Property Office to start a new procedure if

(a) the decision was taken with the participation of a person who could be objected to on the grounds of exclusion;

(b) substantive rules of procedure were infringed during the procedure before the Hungarian Intellectual Property Office which cannot be remedied by the court.

(c) *[repealed]*

(3) Where a party requests a court decision on a matter, which was not the subject of the procedure before the Hungarian Intellectual Property Office, the court shall refer the request to the Hungarian Intellectual Property Office, except when, in the case of opposition, the Hungarian Intellectual Property Office left the ground for opposition out of consideration under Article 61/D(8), in the cancellation procedure, the Hungarian Intellectual Property Office left the ground for cancellation out of consideration under paragraph 73(1) or when the new ground for opposition or cancellation was stated in the request for review or after the filing thereof; such ground for opposition or cancellation shall be left out of consideration by the court. In the case of the referral of the request the court shall, if necessary, repeal the decision of the Hungarian Intellectual Property Office.

(4) The court shall leave out of consideration any facts, allegations or evidence submitted by the party in the request for review or after the filing thereof, which the Hungarian Intellectual Property Office – in compliance with Article 40(3) – duly left out of consideration in the procedure before it.

(5) Where, after the filing of a request for review, the Hungarian Intellectual Property Office withdraws any of its decisions referred to in Article 77(1)(b) to (d), the court shall terminate the proceedings. If the Hungarian Intellectual Property Office has altered its decision, the court proceedings may only continue in respect of matters still pending.

Article 92

The court order on the merits of a case shall be communicated by service, it shall not be considered published by the pronouncement thereof. If the court decides on the request for review at a hearing, the order on the merits of the case shall be pronounced also on the day of the hearing. The pronouncement may be deferred – for not more than eight days – only in the event if it is indispensable because of the complexity of the case. In such a case the time limit for pronouncement shall be fixed immediately and the judgment shall be put into writing until the day of pronouncement.

Article 93

In deciding on the appeal filed against the Metropolitan Court of Justice's decision, the provisions of Article 257 of the Code of Civil Procedure shall apply *mutatis mutandis*, with the proviso that in the case of a request to this effect the court of second instance shall also hear the parties orally, except when the appeal was filed against an order on a request for review filed against a decision of the Hungarian Intellectual Property Office referred to in Article 77(1)(c) and (d).

Article 94

Chapter XII

TRADE MARK LITIGATION

Rules governing trade mark litigation

Article 95

(1) The Metropolitan Court of Justice shall have exclusive competence in court proceedings on trade mark infringement, the prohibition of the use of a trade mark by the representative or the agent under Article 14 or the assignment of the right to trade mark protection or of the trade mark protection under Article 19(5) as well as the prohibition of the use of European Union trade marks under Articles 110 and 111 and Article 165(5) of the European Union Trade Mark Regulation [Article 76/A(a)]. In such proceedings, the chamber of the Metropolitan Court of Justice shall be composed as laid down in Article 78(2).

(2) In court proceedings on trade mark infringement, provisional measures – until the contrary is rendered probable – shall be considered necessary to protect the plaintiff's rights deserving specific appreciation if the plaintiff proves that the trade mark is protected, and he is the holder of the trade mark or a user entitled to institute proceedings for infringement in his own name.

(3) Paragraph (2) shall not apply where six months have already elapsed from the beginning of trade mark infringement or 60 days from the date on which the plaintiff became aware of the infringement and of the identity of the infringer.

(4) In the case of trade mark infringement, the request for provisional measures may also be filed before initiating an action; the Metropolitan Court of Justice shall decide on the request in a non-contentious procedure. With the exceptions deriving from the particular features of non-contentious procedures, the provisions of this Act and the general rules of the Code of Civil Procedure shall apply *mutatis mutandis* to the non-contentious procedure for provisional measures.

If the plaintiff has initiated an action for trade mark infringement in accordance with paragraph (8), the amount exceeding the fee paid in the non-contentious procedure shall be paid as fee for the action.

(5) In addition to civil remedies applicable in the case of infringement, the holder may request the court, on conditions relating to provisional measures, to

(a) order precautionary measures in accordance with the provisions of the Act on Judicial Execution, if he demonstrates circumstances likely to endanger the later satisfaction of his claim for damages or for the surrender of the enrichment obtained by infringement;

(b) compel the infringer to communicate or present his banking, financial or commercial documents with a view to ordering the precautionary measures in accordance with point (a);

(c) order the lodging of security, if in place of demanding discontinuance of the trade mark infringement, the holder consents to the continuation, by the infringer, of the allegedly infringing activity.

(6) The court may order the lodging of security under paragraph (5)(c) even in the absence of a request of the holder to this effect, provided that the holder filed a request for the discontinuance of infringement, which the court does not allow.

(7) The court shall decide on the provisional measures out of turn, within fifteen days from the filing of a request to this effect at the latest. The court of second instance shall decide on the appeal filed against the decision on the provisional measures out of turn, within fifteen days from the filing of the appeal at the latest.

(8) At the request of the defendant, the court shall annul its decision on provisional measures – including paragraphs (5) and (6) as well – requested before the initiation of an action, if the holder has not instituted, within fifteen days from the communication of such decision, proceedings for trade mark infringement with respect to the claim enforced by the provisional measures. The court shall decide on the request for annulling the provisional measures out of turn, within fifteen days from the filing of the request at the latest.

(9) Where, in the course of proceedings for trade mark infringement, one of the parties has already produced reasonably available evidence, the court may, at the request of the party producing the evidence, require the defendant to

(a) present the documents and other exhibits in his possession and to make inspection possible;

(b) communicate or present his banking, financial or commercial documents.

(10) Preliminary production of evidence shall also be admissible before instituting proceedings if the holder has made the fact or danger of trade mark infringement likely to a reasonable extent. If the proceedings have not yet started, preliminary production of evidence shall be requested at the Metropolitan Court of Justice. Preliminary evidence shall be taken by the Metropolitan Court of Justice. Against decisions ordering preliminary production of evidence appeals shall be admissible.

(11) At the request of the defendant, the court shall annul its decision ordering preliminary production of evidence, if the holder has not instituted proceedings for trade mark infringement within fifteen days from the communication of the decision ordering preliminary production of evidence. The court shall decide on the request for annulling preliminary production of evidence out of turn, within fifteen days from the filing of the request at the latest.

(12) Where any delay would cause irreparable harm, it shall be regarded as a case of extreme urgency and – taking this into account – provisional measures, including paragraphs (5) and (6) as well, may be taken without the defendant having been heard. Where any delay would cause irreparable harm, or the risk of the destruction of evidence is likely, it shall be regarded as an urgent case and – taking this into account – preliminary evidence may be taken without the defendant having been heard. Decisions taken without the defendant having been heard shall be communicated to the defendant on execution. After communication of the decision, the defendant

may request to be heard, the review or the annulment of the decision ordering provisional measures or the preliminary production of evidence.

(13) The court may subject the ordering of preliminary production of evidence and – with the exception of paragraph (5)(c) and paragraph (6) – of provisional measures to the lodging of security.

(14) If, in the cases referred to in paragraph (5)(c), paragraph (6) and paragraph (13), the party entitled to compensation from the amount of the security does not enforce his claim within three months from the date on which the decision annulling a decision on the preliminary production of evidence or provisional measures or the judgment on the discontinuance of proceedings took effect, the depositor may demand refund of the security.

(14a) In court proceedings on trade mark infringement the legal consequences laid down in Articles 27(2) and (3) shall not apply in respect of the period when the grounds for revocation of trade mark protection existed based on this Law, provided that the defendant refers to this fact in his defense as to the merits.

(15) Any other trade mark litigation not mentioned under paragraph (1) shall be heard by the court of justice.

(16) The general provisions of the Code of Civil Procedure shall apply in the court proceedings referred to in paragraphs (1) and (15), with the exceptions laid down in Articles 80, 85 and 86(3) of this Act.

(2) *[repealed]*

(3) A sign shall be excluded from trade mark protection as a collective mark:

(a) if the public is liable to be misled as regards the character or the significance of the mark, in particular if it is likely to be perceived as other than a collective mark;

(d) uses any false or misleading indication as to the provenance, origin, nature or essential characteristics of the product, no matter where it is indicated (e.g. on the packaging, advertising material or documents relating to the product concerned);
