

**Act XI of 1997**  
**on the Protection of Trade Marks and Geographical Indications**

In order to promote the development of Hungarian market economy, to improve competition conditions based on the use of signs capable of distinguishing goods and services, to assist consumers in gathering information, and in conformity with Hungary's obligations of international and European Union law concerning the protection of intellectual property, the National Assembly adopts the following Act on the protection of trade marks and geographical indications:

**PART ONE**

(2) Trade mark protection may be granted, in particular, for the following signs:

- (a) words, word combinations, including personal names and slogans;
- (b) letters, numerals;

***Absolute grounds for refusal***

**Section 2**

(1) A sign not meeting the requirements specified in Section 1 shall not be granted trade mark protection.

(2) A sign shall not be granted trade mark protection if:

- (a) it consists exclusively of signs or indications which may serve, in trade, to designate the kind, quality, quantity, purpose, value, geographical origin, the time of production of the goods or of rendering of the service, or other characteristics of the goods or services;
  - (b) it consists exclusively of signs or indications which have become established and customary in the current language or in the bona fide practices of the trade;
  - (c) it is, for any other reason, devoid of any distinctive character;
  - (d) it consists exclusively of
    - (da) a shape, or another characteristic, which results from the nature of the goods,
    - (db) the shape, or another characteristic, of goods which is necessary to obtain the intended technical result, or
    - (dc) a shape, or another characteristic, which gives substantial value to the goods.
- (3) Pursuant to paragraph (2)(a) to (c) the sign shall not be excluded from trade mark protection if – by virtue of its use – it has become distinctive either before the date of application or thereafter, but before the date of registration.

### Section 3

- (1) A sign shall not be granted trade mark protection if:
- (a) it is contrary to public policy or accepted principles of morality;
  - (b) it is of such a nature as to deceive the consumers, in particular regarding the nature, quality, geographical origin or other characteristics of the goods or services;
  - (c) its registration was applied for in bad faith.
- (2) A sign shall not be granted trade mark protection if:
- (a) it consists of, or contains any of the signs listed in Article 6<sup>ter</sup>(1) of the Paris Convention for the Protection of Industrial Property, provided that
    - (aa) such a sign – if it is not a State flag – has been communicated according to Article 6<sup>ter</sup>(3), and
    - (ab) the registration of the sign – consisting of or containing an official sign or hallmark indicating control and warranty – was applied for in respect of identical or similar goods as officially identified by the signs referred to;
  - (b) it consists of a badge, emblem or escutcheon, not covered by point (a), the use of which is of public interest, or if it contains such badge, emblem or escutcheon;
  - (c) it includes – in a manner determining the general impression of the sign – a symbol which strongly expresses a religious or other conviction.
- (3) Trade mark protection may be granted with the consent of the competent authority for signs which consist of or contain the signs specified under paragraph 2(a) and (b).
- (4) A sign shall not be granted trade mark protection if:
- (a) trade mark protection is applied for after the date of application of a geographical indication protected pursuant to Part VII or VIII of this Act, in relation to goods which are of the same type as the goods designated by the geographical indication, and its use would be contrary to Section 109(2),
  - (b) it is excluded from protection pursuant to European Union legislation providing for protection of designations of origin and geographical indications, or
  - (c) it is excluded from protection pursuant to international agreements, to which the European Union or Hungary is party, providing for protection of appellations of origin and geographical indications.
- (5) A sign shall not be granted trade mark protection if it is excluded from protection pursuant to European Union legislation, or an equivalent international agreement to which the European Union is party, providing for the protection of traditional terms for wine.

(6) A sign shall not be granted trade mark protection if it is excluded from protection pursuant to European Union legislation regulating the registration of traditional specialities guaranteed, or an equivalent international agreement to which the European Union is party.

(7) A sign shall not be granted trade mark protection if – in respect of plant varieties of the same or closely related species – it consists of, or reproduces in its essential elements, an earlier plant variety denomination, which has been registered in the plant variety register pursuant to

- (a) European Union legislation providing for plant variety protection,
- (b) the Patent Act, or

(c) an international agreement to which the European Union or Hungary is party, providing for plant variety protection.

### ***Relative grounds for refusal***

#### **Section 4**

(1) A sign shall not be granted trade mark protection:

(a) with respect to identical goods or services, if the sign with the later date of priority is identical with an earlier trade mark;

(b) if because of its identity with, or similarity to, the earlier trade mark and the identity or similarity of the goods or services covered by the trade mark, there exists a likelihood of confusion on the part of the consumers; including the case where the likelihood of confusion is present because consumers may link the sign to the earlier trade mark by way of association;

(c) if its date of priority is of a later date than that of an earlier, identical or similar trade mark which has a reputation in Hungary, or, in the case of an EU trade mark, in the European Union, irrespective of whether the goods or services for which it is applied are identical with, or similar to, those for which the earlier trade mark is registered, where use of that sign without due cause would be detrimental to, or take unfair advantage of, the distinctive character or the repute of the trade mark with a reputation.

(2) For the purposes of this Section ‘earlier trade mark’ means:

(a) all

(aa) trade marks registered under this Act, including trade marks registered under international agreements which have effect in Hungary,

(ab) EU trade marks registered under Regulation 2017/1001/EU of the European Parliament and the Council (hereinafter “EU Trade Mark Regulation”),

the date of application or, where applicable, the date of claimed priority of which is earlier than the application for registration of the trade mark;

(b) for the purposes of paragraph (1)(a) and (b), signs which, irrespective of their registration, on the date of application for registration of the trade mark, or, where appropriate, of the priority claimed in respect of the application for registration of the trade mark, are considered to be well known in Hungary pursuant to Article 6bis of the Paris Convention;

(c) EU trade marks which validly claim seniority, in accordance with the EU Trade Mark Regulation, of a trade mark referred to in point (a)(aa), even when the protection of the latter trade mark has been surrendered or allowed to lapse;

(d) applications for the registration of trade marks referred to in points (a) and (c), subject to their registration,

with the understanding that where this Act refers to an earlier or later trade mark, the provisions laid down in this paragraph shall apply accordingly with respect to their chronological order.

(3) A sign shall not be excluded from trade mark protection if it is in conflict with an earlier trade mark which has not been put to use by its holder in accordance with the provisions of

Section 18, or the protection of which no longer exists at the filing date of the trade mark application.

(4) [repealed]

## Section 5

(1) No sign shall be granted trade mark protection which

(a) would infringe a right relating to the personality of others, in particular the right to a name or the right of personal portrayal;

(b) would conflict with someone else's copyright or related right, or industrial property right.

(2) Trade mark protection shall not be granted for

(a) a sign, if its use could be prohibited, by virtue of a sign which has been genuinely used earlier, in the course of trade, without registration in Hungary, by the earlier user pursuant to another law;

(b) a sign the use of which could be prohibited by the person entitled to exercise the rights arising from geographical indications based on European Union legislation or national law providing for protection of designations of origin or appellations of origin and geographical indications, provided that the application for registration of the designation of origin or appellation of origin or geographical indication had been filed prior to its date of application for registration, and subject to the subsequent registration of the designation of origin or of the appellation of origin or of the geographical indication.

(3) The priority of the trade mark application shall be taken into account when deciding whether the application for the registration of the right, use, designation of origin or appellation of origin or geographical indication is to be considered as filed earlier for the purposes of paragraphs (1) and (2).

## Section 6

A sign shall not be granted trade mark protection if a representative or agent of the holder of a trade mark applies for registration thereof in his own name without the holder's authorization, unless the representative or agent justifies his action.

### *Declaration of consent*

## Section 7

(1) A sign shall not be excluded from trade mark protection pursuant to Section 4, Section 5(1) or Section 5(2)(a), or the trade mark shall not be declared invalid pursuant to the grounds for refusal laid down in these provisions, if the holder of the earlier conflicting right consents to the registration of the sign.

(2) A declaration of consent shall be valid if drawn up in a public deed or private deed of full probative value.

(3) The declaration of consent may not be withdrawn nor may it be replaced by a court decision.

### *Eligibility for trade mark protection*

## Section 8

(1) Trade mark protection shall be granted for a sign if

- (a) it satisfies the requirements of Section 1 and is not excluded from trade mark protection under the terms of Sections 2 to 7, and
- (b) the relevant application meets the requirements laid down in this Act.

## **Chapter II**

### ***RIGHTS AND OBLIGATIONS CONFERRED BY TRADE MARK PROTECTION***

#### ***Right to trade mark protection***

##### **Section 9**

(1) The right to legal protection of a trade mark (hereinafter “trade mark protection”) shall belong to the person who has the trade mark registered according to the procedure provided for by this Act.

(2) Any natural or legal person, irrespective of whether they pursue business activities, may obtain trade mark protection.

(3) If two or more persons apply for the registration of the sign jointly, they shall jointly acquire trade mark protection. If two or more persons are entitled to the right, it shall be deemed to belong to them in equal proportions unless otherwise specified.

#### ***Commencement of trade mark protection***

##### **Section 10**

Trade mark protection shall commence with registration and be effective retroactively from the date of filing of the application.

#### ***Term of trade mark protection***

##### **Section 11**

(1) Trade mark protection shall have a term of 10 years beginning on the date of filing of the application.

(2) Trade mark protection shall be renewed for further 10-year terms. In case of renewal, the new term of protection shall commence on the day following the date of expiry of the previous term.

#### ***Rights conferred by trade mark protection***

##### **Section 12**

(1) Trade mark protection shall confer on its holder an exclusive right to use the trade mark.

(2) Without prejudice to the rights acquired by others before the filing date or the priority date of the trade mark, on the basis of the exclusive right of use, the holder of the trade mark shall be entitled to prevent any person not having his consent from using in the course of trade, for goods or services:

(a) any sign identical with the trade mark for goods or services which are identical with those for which the trade mark is registered;

(b) any sign where, because of its identity with or similarity to the trade mark and the identity or similarity of the goods or services, there exists a likelihood of confusion on the part of the public; the likelihood of confusion includes the likelihood of association between the sign and the trade mark; or

(c) any sign which is identical with or similar to the trade mark, irrespective of whether it is used in relation to goods or services which are identical with, or similar to, those for which the trade mark is registered, provided that the trade mark has a reputation in the country and the use of that sign without due cause would be detrimental to, or would take unfair advantage of, the distinctive character or the repute of the trade mark.

(3) The following, in particular, may be prohibited under paragraph (2):

(a) affixing the sign to the goods or to the packaging thereof;

(b) putting the goods on the market or offering them for sale, or stocking them for those purposes, under that sign;

(c) supplying or offering services under that sign

(d) importing or exporting the goods under the sign;

(e) using the sign on business papers and in advertising

(f) using the sign as a trade or company name or part of a trade or company name;

(g) using the sign in comparative advertising in a manner that is contrary to the provisions of the Act on the prohibition of unfair market practices and of the restriction of competition.

(4) Without prejudice to the rights of others acquired before the filing date or the priority date of the registered trade mark, the holder shall also be entitled to prevent third parties from bringing goods, in the course of trade, into the country, without being released for free circulation there, where such goods, including the packaging thereof, come from third countries and bear without authorisation a trade mark which is identical with the trade mark registered in respect of such goods, or which cannot be distinguished in its essential aspects from that trade mark.

(5) The entitlement of the trade mark holder pursuant to paragraph (4) shall lapse if, during the proceedings aimed at determining whether the registered trade mark has been infringed and initiated in accordance with Regulation (EU) No 608/2013 of the European Parliament and of the Council of 12 June 2013 concerning customs enforcement of intellectual property rights and repealing Council Regulation (EC) 1383/2003, evidence is provided by the declarant or the holder of the goods that the holder of the trade mark is not entitled to prohibit the placing of the goods on the market in the country of destination.

(6) Where the risk exists that the packaging, labels, tags, security or authenticity features or devices, or any other means to which the trade mark is affixed, could be used in relation to goods or services and that use would constitute an infringement of the rights of the holder of a trade mark under paragraphs (2) and (3), the holder of that trade mark shall have the right to prohibit the following acts if carried out in the course of trade:

(a) affixing a sign identical with, or similar to, the trade mark on packaging, labels, tags, security or authenticity features or devices, or any other means to which the mark may be affixed;

(b) offering or placing on the market, or stocking for such purpose, or importing or exporting any packaging, labels, tags, security or authenticity features or devices, or any other means to which the mark is affixed.

(7) The holder of a trade mark protection may invoke the rights conferred by that trade mark against a licensee referred to in Section 23(1) who contravenes any provision in his licensing contract with regard to:

(a) the duration of the licence,

(b) the form covered by the registration in which the trade mark may be used pursuant to the license,

- (c) the scope of the goods or services for which the licence is granted,
- (d) the territory in which the trade mark may be used, or
- (e) the quality of the goods manufactured or of the services provided by the licensee.

### ***Reproduction of trade marks in reference works***

#### **Section 13**

If the representation of a trade mark in a dictionary, encyclopaedia or other reference work, in print or electronic form, gives the impression that it constitutes the generic name of the goods or services for which the trade mark is registered, the publisher shall, at the request of the holder of the trade mark, indicate without delay – in the case of works in printed form at the latest in the next edition of the publication – that it is a registered trade mark.

### ***Opposing the use of a trade mark registered in the name of a representative or agent without the holder's authorisation***

#### **Section 14**

(1) Where a trade mark application is filed or a trade mark is registered in the name of a representative or agent without the holder's authorization, the holder shall be entitled to oppose the use of the trade mark by the agent or representative, and instead of or in addition to that, he shall be entitled to demand the assignment of the claim to trade mark protection or of the trade mark protection in his favour.

(2) Paragraph (1) shall not apply where the representative or agent justifies his action.

### ***Limitations of trade mark protection***

#### **Section 15**

(1) Trade mark protection shall not entitle the holder to prohibit any other person from using, where such use by the other person is in accordance with honest practices in industrial or commercial matters, in the course of trade:

- (a) his own name or address;
- (b) signs or indications which are not distinctive from the outset or which concern the kind, quality, quantity, intended purpose, value, geographical origin, the time of production of goods or of rendering of the service, or other characteristics of goods or services;
- (c) the trade mark for the purpose of identifying or referring to goods or services as those of the holder of that trade mark, including where the use of the trade mark is necessary to indicate the intended purpose of a product or service, in particular as accessories or spare parts.

(2) Pursuant to paragraph (1)(a) only natural persons may invoke their own name or address against the holder of the trade mark.

### ***Exhaustion of the rights conferred by trade mark protection***

#### **Section 16**

(1) Trade mark protection shall not entitle the holder to prohibit the use of the trade mark in relation to goods which have been placed on the market in the European Economic Area by him or with his expressed consent.

(2) The provision under paragraph 1 shall not apply where there exist legitimate reasons for the holder to oppose further commercialisation of the goods, in particular where the consistency or condition of the goods is changed or impaired after they have been put on the market for the first time.

### *Acquiescence*

#### **Section 17**

(1) Where the holder of an earlier trade mark as referred to in Section 4(2) has acquiesced, for a period of five successive years, in the use of a later trade mark in the country while being aware of such use, he shall no longer be entitled either to oppose the use of the later trade mark [Section 27/B(1)] or to apply, on the basis of his earlier trade mark, for a declaration that the later trade mark is invalid [Section 33(2)(b)].

(2) Paragraph (1) shall only apply to goods or services in relation to which the later trade mark was put in genuine use.

(3) Paragraph (1) shall not apply if the registration of the later trade mark was applied for in bad faith.

(4) The holder of a later trade mark shall not be entitled to oppose the use of the earlier trade mark, even if that right may no longer be invoked against the later trade mark pursuant to paragraph (1).

(5) The provisions of paragraphs (1) to (4) shall apply accordingly to earlier rights referred to in Section 5(1)(a) to (b) and Section 5(2)(a).

### *Failure to use trade marks*

#### **Section 18**

(1) If, within a period of five years following the date of registration, the holder has not put the trade mark to genuine use in the country in connection with the goods or services for which it is registered, or if such use has been suspended during an uninterrupted period of five years, trade mark protection shall be subject to the legal consequences provided for in this Act [Section 4(3); Section 27/A; Section 30(d); Section 33(2)(a); Section 34; Section 61/E; Section 73(2)], unless non-use is duly justified by the holder of the trade mark.

(2) For the purposes of paragraph (1), in respect of trade marks registered in the course of a special accelerated procedure [Section 64/A(7)], the date of registration shall be deemed to be

(a) the day which follows the expiry of the period pursuant to Section 61/B(1), or

(b) the day on which the final and binding decision on the opposition was taken, provided an opposition has been filed.

(3) For the purposes of paragraph (1), in respect of international trade marks registered with effect in Hungary, the date of registration shall be deemed to be, as appropriate, the date of registration specified in Section 76/P(5), (5c), (5d) or (5e).

(4) For the purposes of paragraph (1), the following shall constitute domestic genuine use of the trade mark:

(a) use of the trade mark in a form differing from the registered form only in elements which do not affect its distinctive character, regardless of whether or not the trade mark in the form as used has also been registered in the name of the holder;

(b) affixing of the trade mark to goods or to the packaging thereof in the territory of Hungary solely for export purposes.

(5) For the purposes of this Section, use of the trade mark with the authorization of the holder shall be deemed to constitute use by the holder.

(6) In the case of an EU trade mark, use in accordance with this Section means use in conformity with the provisions under Article 18 of the European Union Trade Mark Regulation.

### **Chapter III**

#### ***TRADE MARKS AND THEIR PROTECTION AS NEGOTIABLE PROPERTY RIGHTS***

##### ***Legal succession***

##### **Section 19**

(1) Rights related to the trade mark and deriving from a trade mark application or from trade mark protection shall constitute negotiable property rights.

(2) The legal successor of a legal person shall acquire the trade mark as well, unless otherwise provided by the parties or implied clearly differently by circumstances.

(3) Trade mark protection may be transferred by contract. Trade mark protection may also be transferred in respect of a part of the goods or services for which the trade mark is registered.

(4) The contract for the transfer of trade mark protection shall be null and void if the transfer may result in misleading the consumers.

(5) *[repealed]*

##### ***Encumbrance and levy of execution***

##### **Section 20**

Rights related to the trade mark and deriving from a trade mark application or from trade mark protection may be encumbered or levied in execution. For hypothecation, it shall be necessary to put the security contract in writing and enter the lien in the trade mark register.

##### ***Joint trade mark application and joint trade mark protection***

##### **Section 21**

(1) If there are two or more holders of the same trade mark, each of the joint holders may exercise the rights conferred by trade mark protection over his own share. Joint trade mark holders enjoy a right of pre-emption against third parties on each other's share.

(2) The trade mark may be used by any one of the joint holders alone; however, he shall be obliged to pay appropriate remuneration to the other joint holders, in proportion to their shares. For the purposes of Section 18, such use of the trade mark shall be deemed use by all of the trade mark holders.

(3) Third parties may only be granted licence for the use of a trade mark jointly by all holders. Consent may be substituted by a court judgement under the general provisions of civil law.

(4) In the event of doubt, the shares of all joint trade mark holders shall be deemed equal. The rights of the other joint trade mark holders shall extend, in proportion to their own shares, to the share of any joint holder surrendering his trade mark protection.

(5) Any one of the joint trade mark holders shall be entitled to act individually to renew, enforce and protect trade mark rights. Their procedural acts, except for settlement, admission

of claims and waiver of rights, shall have effect on all the other trade mark holders as well who failed to observe a time limit, deadline or to perform an act, provided that such other joint trade mark holders have not subsequently remedied their omission.

(6) If the procedural acts of the joint trade mark holders are in conflict, these acts shall be assessed having regard to all other relevant facts of the proceedings.

(7) Costs relating to joint trade mark protection shall be borne by the joint trade mark holders in proportion to their shares. If, despite being invited to do so, a joint holder fails to pay his share of the costs, the joint holder paying those costs shall be entitled to claim that the share belonging to the joint holder not having met his obligation be transferred to him.

(8) The provisions concerning joint trade mark protection shall apply accordingly to joint trade mark applications.

## **Section 22 [repealed]**

### **Chapter IV**

#### **TRADE MARK LICENSING CONTRACTS**

##### ***Trade mark licensing contracts***

### **Section 23**

(1) Under a trade mark licensing contract, the holder of trade mark protection shall license the right to use a trade mark and the licensee shall pay a licence fee.

(2) The parties shall be free to determine the contents of the licensing contract. However, any licensing contract the performance of which could result in misleading consumers shall be null and void.

##### ***Rights and obligations of the parties***

### **Section 24**

(1) The trade mark holder shall be liable, for the whole duration of the licensing contract, that no third parties hold rights in the trade mark that prevent or limit the exercise of the right of use. The provisions of the Civil Code governing warranty for legal defects shall apply accordingly to this liability, except that the licensee shall be entitled, instead of withdrawal, to unilaterally terminate the contract with immediate effect.

(2) The trade mark holder shall inform the licensee of all rights and important circumstances in relation to the trade mark, however, he shall be obliged to transfer economic, technical and organisational know-how thereof upon expressed agreement only.

(3) The trade mark holder shall have the right to control, at the licensee, the quality of the goods bearing the trade mark or of the services supplied under the trade mark.

(4) The licensing contract shall cover all goods and services for which the trade mark is registered, to every mode and extent of use, without limitation in time or as to territory.

(5) The licensing contract shall grant exclusive right of use only if this is expressly stipulated therein. In the case of an exclusive licence, besides the licensee who has acquired the right of use, the trade mark holder may also use the trade mark, unless this is expressly excluded by the contract. The trade mark holder may terminate the exclusivity of a licence, subject to a proportional reduction in the licence fee, if the licensee fails to begin the use of the trade mark within a reasonable time under the given circumstances.

(6) The licensee may transfer the licence or grant sub-licences to third parties subject to the express consent of the holder only.

### ***Termination of licensing contracts***

#### **Section 25**

The licensing contract shall terminate *ex nunc* when the contractual period expires or when certain circumstances specified in the contract occur or when the trade mark protection terminates.

### ***Effect of the provisions relating to licensing contracts***

#### **Section 26**

(1) By mutual consent the parties may derogate from the provisions relating to licensing contracts unless it is prohibited by law.

(2) *[repealed]*

### **Chapter V**

## ***INFRINGEMENT***

### ***Trade mark infringement***

#### **Section 27**

(1) Any unlawful use of a trade mark that violates the provisions of Section 12 shall qualify as trade mark infringement.

(2) The trade mark holder may, according to the circumstances of the case, have recourse to the following civil remedies:

(a) he may demand that the fact of infringement be declared by the court;

(b) he may demand that the infringer cease the infringement or any acts directly threatening therewith and that he be prohibited from further infringements;

(c) he may demand that the infringer give information on the identity of persons involved in the production and distribution of the infringing goods or the provision of infringing services and of the business contacts established for their distribution;

(d) he may demand satisfaction from the infringer by way of a declaration or other appropriate means and, if necessary, that the declaration be made public by or at the expense of the infringer;

(e) he may demand the surrender of the enrichment obtained through the infringement of the trade mark;

(f) he may demand the seizure, transfer to a specific person, recall or definitive removal from the channels of commerce, or destruction, of the infringing products and packaging, as well as of the means and materials exclusively or primarily used for infringement.

(3) Where a trade mark is infringed, the trade mark holder shall also be entitled to claim damages under the rules of civil liability.

(4) The trade mark holder shall be entitled to submit the demand referred to in paragraph (2)(b) also against any person whose services were used for the infringing activities.

(5) The trade mark holder shall be entitled to submit the demand referred to in paragraph (2) c) also against any person who

a) was found in possession of the infringing goods on a commercial scale;  
b) was found to be using the infringing services on a commercial scale;  
c) was found to be providing on a commercial scale services used for the infringing activities;

d) was indicated by the person referred to in points a) to c) as being involved in the production or distribution of the infringing goods or the provision of the infringing services.

(6) For the purposes of paragraph (5) a) to c), the acts shall be deemed to have been carried out on a commercial scale if it is obvious from the nature and quantity of the infringing goods or services that these acts were carried out for direct or indirect commercial or other economic advantage. Unless proven to the contrary, acts carried out by consumers in good faith shall not be regarded as acts carried out on a commercial scale.

(7) On the basis of paragraph (2)(c) or paragraph (5), the infringer or the person referred to in paragraph (5) may be ordered to provide, in particular, the following information:

a) the names and addresses of the producers, distributors or providers of the infringing goods or services, and the holders as well as the intended or involved wholesalers and retailers of the infringing goods or services;

b) the quantities produced, delivered, received or ordered of the infringing goods or services, as well as the price obtained or paid for the goods or services in question.

(8) At the request of the trade mark holder, the court may order that the means, materials, goods and packaging seized, recalled from the channels of commerce or definitively removed from the channels of commerce be divested of their infringing nature or, if this is not possible, that they be destroyed. In justified cases, the court may order, instead of destruction, that the means and materials seized be auctioned according to the procedure of judicial enforcement; in such cases, the court shall decide in a judgement on how the sum obtained is to be used.

(9) Seizure of the means and materials used in infringing activities and of the infringing goods and packaging shall also be ordered if they are not owned by the infringer, but the owner knew or, with the diligence normally to be expected, should have known about the infringement.

(10) The court shall order the measures referred to in paragraph (2)(f) and paragraph (8) to be taken at the expense of the infringer, except when derogation therefrom is justified by the circumstances of the case. In ordering the recall from the channels of commerce, the definitive removal therefrom, or destruction, the court shall decide by taking into account the interests of third parties and by ensuring the proportionality of the measures to the seriousness of the infringement.

(11) At the request of the trade mark holder, the court may order that its decision be made public at the expense of the infringer. The court shall decide on how to ensure publicity. Publicity shall mean, in particular, publication in a national daily newspaper or on the Internet.

### *Non-use as defence in infringement proceedings*

#### **Section 27/A**

(1) The holder of the trade mark may oppose the use of the sign only if the holder's rights are not liable to be revoked pursuant to Section 34 at the time the infringement action is brought.

(2) If the defendant so requests, the holder of the trade mark shall furnish proof that

(a) during the five-year period preceding the date of bringing the action, he put the trade mark to genuine use as provided in Section 18 in connection with the goods or services in respect of which it is registered, or

(b) he had proper reasons for non-use,  
provided that, at the date of bringing the action, the five-year period specified in Section 18(1) to (3) has already expired.

***Intervening right of the holder of a later trade mark as defence in infringement proceedings***

**Section 27/B**

(1) The holder of a trade mark shall not be entitled to oppose the use of a later mark where that later trade mark would not be declared invalid pursuant to Section 33(2) or (2a), or Section 73(3).

(2) The holder of a trade mark shall not be entitled to oppose the use of a later EU trade mark where that later trade mark would not be declared invalid pursuant to Articles 60(1), (3) or (4), 61(1) or (2) or 64(2) or (3) of the European Union Trade Mark Regulation.

(3) Where the holder of a trade mark is not entitled to oppose the use of a later trade mark pursuant to paragraph (1) or (2), the holder of that later registered trade mark shall not be entitled to demand the prohibition of the use of the earlier trade mark, even if that earlier right may no longer be invoked against the later trade mark.

***Customs law consequences of trade mark infringement***

**Section 28**

Upon trade mark infringement, the trade mark holder may, according to the provisions of the laws on customs action against goods infringing intellectual property rights, request the customs authorities to take measures to prevent the infringing goods be placed on the market.

***Rights of the applicant and of the licensee in the case of trade mark infringement***

**Section 29**

(1) An applicant may also initiate proceedings for trade mark infringement; however, the proceedings shall be suspended until a final and binding decision is adopted on the registration of the trade mark.

(2) The licensee may bring proceedings for trade mark infringement in his own name only if the trade mark holder consents thereto or if the licensing contract authorised him to do so. However, the holder of an exclusive licence may bring such proceedings in his own name and without the consent of the holder against the infringer, if the holder of the trade mark, after formal notice, does not himself bring infringement proceedings within 30 days.

(3) A licensee shall, for the purpose of obtaining compensation for damage suffered by him, be entitled to join the infringement action brought by the holder of the trade mark as a co-litigant. Section 52(2)(a) of Act CXXX of 2016 on the Code of Civil Procedure (hereinafter "the Code of Civil Procedure") shall apply accordingly to the time limit of joining the action as co-litigant, and Section 38(3) and Section 39 of the Code of Civil Procedure shall apply accordingly to the relationship of the co-litigants.

**Chapter VI**

***TERMINATION OF TRADE MARK PROTECTION***

## ***Modes of termination***

### **Section 30**

(1) Trade mark protection shall terminate if

(a) the period of protection expires without renewal (Sections 11 and 31), on the day following the date of expiry;

(b) the holder of the trade mark surrenders the protection (Section 32), on the day following receipt of the surrender, or at an earlier date specified by the person surrendering the protection;

(c) if the trade mark has been declared invalid (Section 33), with retroactive effect to the date of the application;

(d) if the holder of the trade mark has not put the trade mark to genuine use (Sections 18 and 34), with retroactive effect to the filing date of the request for revocation;

(e) if the trade mark has lost its distinctive character or has become misleading (Section 35), with retroactive effect to the filing date of the request for revocation.

(f) *[repealed]*

(2) Under paragraphs (1)(d) and (1)(e), at the request of either of the parties, trade mark protection may also be revoked with retroactive effect to an earlier date on which the ground for filing the request for revocation occurred, provided that the conditions for revocation existed both at the earlier date specified and at the time of filing the request for revocation.

(3) For the purposes of paragraph (2), the date of priority of the later, conflicting trade mark application of the requesting party shall be considered, until proof of the contrary, to be the date on which the ground for revocation occurred, provided that that requesting party filed such trade mark application.

## ***Partial termination due to expiry of the period of protection***

### **Section 31**

If trade mark protection is renewed only in respect of some of the goods or services for which the trade mark has been registered, trade mark protection shall terminate due to expiry of the period of protection in respect of the parts not covered by the renewal.

## ***Surrender of trade mark protection***

### **Section 32**

(1) The trade mark holder entered in the trade mark register may surrender the trade mark protection in a written declaration addressed to the Hungarian Intellectual Property Office.

(2) If the surrender affects the rights of third parties deriving from a law, from a substantive decision by an authority, from a licensing contract or any other contract recorded in the trade mark register, or if a court action is recorded in the trade mark register, the surrender shall take effect only with the consent of the parties concerned.

(3) Trade mark protection may also be surrendered in respect of only some of the goods or services for which the trade mark is registered.

(4) Surrender of trade mark protection may not be withdrawn.

## ***Declaration of invalidity of trade marks***

### Section 33

- (1) The trade mark shall be declared invalid
- (a) if the subject matter of the trade mark protection does not meet the requirements laid down in Section 8(a);
  - (b) if the subject matter of the trade mark protection differs from, or the list of goods or services extends beyond, the content of the application as filed at the acknowledged filing date or, in the case of division, the content of the divisional application;
  - (c) if the international trade mark application has been filed by a person not entitled to it under the Madrid Agreement or the Protocol Relating to the Madrid Agreement [Section 76/I(1)(a)].
- (2) The trade mark shall not be declared invalid if
- (a) it conflicts with an earlier trade mark [Section 4(2)] the use of which does not meet, at the date of filing of the request for a declaration of invalidity, the requirements laid down in Section 18, or the protection of which no longer exists at the date of filing of the request for a declaration of invalidity; or
  - (b) it conflicts with an earlier trade mark, non-registered sign or any other rights whose holder was aware of the registration of the later trade mark and has acquiesced, for a period of five successive years, in the use of that trade mark, unless the holder of the later trade mark acted in bad faith.
- (2a) A request for a declaration of invalidity on the basis of an earlier trade mark shall not succeed if it would not have been successful at the filing date or the priority date of the later trade mark for any of the following reasons:
- (a) the earlier trade mark, liable to be declared invalid pursuant to Section 2(2)(a) to (c), has not yet acquired a distinctive character as referred to in Section 2(3);
  - (b) the request for a declaration of invalidity is based on Section 4(1)(b) and the earlier trade mark has not yet become sufficiently distinctive to support a finding of likelihood of confusion within the meaning of Section 4(1)(b);
  - (c) the request for a declaration of invalidity is based on Section 4(1)(c) and the earlier trade mark has not yet acquired a reputation within the meaning of Article 4(1)(c).
- (2b) A trade mark shall not be declared invalid based on Section 2(2)(a) to (c) if, before the date of request for a declaration of invalidity, following the use which has been made of it, it has acquired a distinctive character.
- (3) If the grounds for invalidity exist in respect of only some of the goods or services for which the trade mark is registered, trade mark protection shall be limited accordingly.
- (4) If a request for a declaration of invalidity has been rejected by a final and binding decision, no new proceedings for a declaration of invalidity may be instituted by any person based on the same facts in respect of the same trade mark.

### *Revocation by reason of non-use*

### Section 34

- (1) Trade mark protection shall be revoked by reason of non-use in respect of all or some of the goods or services for which the trade mark is registered, depending on whether non-use involves all or only some of the goods or services for which the trade mark is registered.
- (2) Revocation of trade mark protection by reason of non-use shall not be declared if, following the period laid down in Section 18(1) to (3) but before the filing of the request for revocation by reason of non-use, genuine use of the trade mark has been started or continued. This provision shall not apply if the trade mark holder commences or continues genuine use of

the trade mark within a period of three months, which may have begun at the earliest on expiry of the continuous five-year period of non-use, preceding the filing of the request, only after the holder becomes aware that a request for revocation by reason of non-use may be filed.

(3) If a request for revocation by reason of non-use has been rejected by a final and binding decision, no new proceedings for revocation by reason of non-use shall be instituted by any person based on the same facts in respect of the same trade mark.

### ***Revocation due to loss of distinctive character or becoming misleading***

#### **Section 35**

(1) Trade mark protection shall be revoked if

(a) as a result of acts or inactivity of the holder, the sign has become the common name in the trade for a product or service in respect of which it is registered; or

(b) as a result of the use made of it by the holder of the trade mark or with the holder's authorization, the trade mark has become misleading, particularly as to the nature, quality or geographical origin of those goods or services.

(2) Trade mark protection shall be revoked due to loss of distinctive character or becoming misleading in respect of all or some of the goods or services for which the trade mark was registered, depending on whether the grounds for revocation exist in respect of all or only some of the goods or services for which the trade mark is registered.

(3) If a request for revocation due to loss of distinctive character or becoming misleading has been rejected by a final and binding decision, no new proceedings for revocation shall be instituted by any person based on the same facts in respect of the same trade mark.

#### **Section 35/A [repealed]**

### ***Reclaiming of licence fees***

#### **Section 36**

If the trade mark protection terminates with retroactive effect, only the portion of the licence fee collected by the trade mark holder may be reclaimed that was not covered by the economic benefits derived from the use of the trade mark.

### **Chapter VI/A**

(1) In the course of trade mark proceedings pending before it, the Hungarian Intellectual Property Office shall examine the facts of the case, with the exception set out in paragraph (2), *ex officio*; its examination shall not be confined to the allegations of the parties.

(2) In the course of trade mark registration proceedings where an opposition is filed against the registration of a sign as a trade mark, as well as in invalidity and revocation proceedings, the Hungarian Intellectual Property Office shall examine the facts within the bounds of the request and on the basis of the allegations and statements of the parties and the data proven by them.

(3) The decisions of the Hungarian Intellectual Property Office shall be based only on facts or evidence on which the parties concerned have had an opportunity to present their comments; however, facts or evidence not submitted by the party in due time may be left out of consideration.

(3a) In proceedings listed in paragraph (2), parties shall file their submissions and attachments thereto in one copy with the Hungarian Intellectual Property Office if they use electronic means of communication, otherwise they shall file a copy for each party with opposing interests in the proceedings plus one additional copy; if several parties have a common representative, for this person one copy shall suffice. If the party files his submission or its attachments in a lesser number of copies than prescribed, and this irregularity is not rectified in accordance with paragraph (4), the opposition, the request for a declaration of invalidity or the request for revocation shall be considered withdrawn, and the statement of the applicant or of the holder of the trade mark shall be considered not to have been submitted.

(4) If the irregularities of a request or of its attachments submitted in trade mark matters can be rectified, the party shall be invited to rectify the irregularities of the submission or to submit comments, and at the same time be warned of the legal consequences of non-compliance. If, in spite of the rectification or comments, the request does not meet the relevant requirements, and this Act does not make provision for other legal consequences, the request shall be rejected. If the party does not respond to the invitation within the prescribed time limit, the request – if this Act does not make provision for other legal consequences – shall be considered withdrawn.

(5) *[repealed]*

### ***Time limits***

#### **Section 41**

(1) The time limits prescribed by this Act shall not be extended. Legal consequences of failure to meet such time limits shall occur without any special notice.

(2) If this Act does not prescribe any time limit to rectify the irregularities or to submit comments, a time limit of at least thirty days shall be granted to the party, which may be extended on request submitted before the expiry of the time limit. A time limit of more than three months and more than three extensions of a time limit may only be granted in particularly justified cases.

(3) The administrative time limits for the conclusion of proceedings and the provisions on other time limits prescribed in the Code of General Administrative Procedure for other measures of the proceeding authority shall not apply to trade mark matters.

(4) In trade mark matters, the filing date of documents submitted by post is the date on which the document was delivered to the Hungarian Intellectual Property Office. Documents delivered after the time limit set by the Hungarian Intellectual Property Office shall be deemed submitted in due time if the documents were sent by registered mail before the expiry of the time limit, unless the document was delivered later than two months after the expiry of the time limit.

## ***Request for re-establishment of rights***

### **Section 42**

(1) In trade mark matters, unless excluded under paragraph (5), a request for re-establishment of rights may be submitted within fifteen days of the unobserved due date or of the last day of the missed time limit. The application must state the cause for failing to comply and the circumstances substantiating that the failure did not occur through the fault of the party.

(2) If the failure to comply became known to the party subsequently or the cause thereof ceased subsequently, the time limit shall be calculated from the date on which the failure to comply became known or the cause thereof ceased. The request for re-establishment of rights shall be admissible only within six months from the due date or the last day of the time limit not met.

(3) If a time limit is not complied with, the omitted act must be carried out simultaneously with the submission of the request for re-establishment of rights or, if it is admissible, an extension of the time limit may be requested.

(4) If the Hungarian Intellectual Property Office grants the re-establishment of rights, the acts carried out by the defaulting party shall be considered to have been performed within the time limit not met; a hearing held on the date unobserved shall be, as necessary, repeated. Depending on the outcome of the new hearing, a decision shall be made on whether the decision taken at the original hearing should be upheld or should be revoked in whole or in part.

(5) No request for re-establishment of rights shall be admissible:

(a) in the event of failing to comply with the time limit prescribed for filing the declaration of priority [Section 53(2)];

(b) in the event of failing to comply with the time limit of six months fixed for claiming Convention or exhibition priority;

(c) in the event of failing to comply with the time limit prescribed for filing an opposition [Section 61/B(1) and Section 76/P(3)];

(d) in the event of failing to comply with the time limit fixed for filing the request for accelerated procedure [Section 64/A(1)].

## ***Suspension of the proceedings***

### **Section 43**

(1) If a court action is instituted with respect to the entitlement to file a trade mark application or to the right to trade mark protection, trade mark proceedings shall be suspended until the court decision becomes final and binding. If a decision on the merits of a trade mark case is subject to a prior consideration of a matter falling within the competence of another authority, the Hungarian Intellectual Property Office shall suspend the trade mark proceedings.

(2) Upon the death or termination of a party, the proceedings shall be suspended until the person of the legal successor is communicated and attested. If the person of the legal successor is not communicated within a reasonable time according to the circumstances of the case, the Hungarian Intellectual Property Office shall terminate the proceedings or shall decide on the basis of the material at its disposal.

(3) The Hungarian Intellectual Property Office shall suspend the trade mark proceedings at the request of the party or *ex officio*, if a well-founded decision cannot be made in the case without a decision taken in other, closely connected proceedings within its own competence.

(4) The trade mark registration proceedings cannot be suspended at the request of the party, except if the provisions of paragraph (1) or (3) would apply.

(5) The suspension of the proceedings shall interrupt all time limits, and the time limits shall recommence from the termination of the suspension.

(6) The Hungarian Intellectual Property Office may decide that the suspension of the proceedings shall not affect the ongoing procedural acts and the time limits determined for their performance.

For the validity of the authorisation of a patent attorney, an attorney-at-law, a patent attorneys' office, a patent attorneys' partnership or a law office, given either in the country or abroad, the signature by the principal shall be sufficient. The power-of-attorney may also be a general authorisation, on the basis of which the representative can proceed in all trade mark cases within the competence of the Hungarian Intellectual Property Office, to which the principal is a party. A power-of-attorney given to a law office, a patent attorneys' office or a patent attorneys' partnership shall be deemed to be an authorisation given to any person who certifies his operating within the framework of the office or partnership.

(4) Paragraph (1) and paragraph (3)(b) shall not apply for foreigners who are natural persons or legal persons with domicile or seat in the territory of a Member State of the European Economic Area.

(5) In the event that paragraph (3)(b) and paragraph (4) do not apply and the foreigner has not complied with the requirements laid down in paragraph (1), the Hungarian Intellectual Property Office shall apply in the trade mark proceedings the provisions of Section 59(2) to (4) accordingly, with the derogation that the request shall be assessed on the basis of the information available, if the foreign participant of the proceedings, being the opposing party, did not comply with the requirements laid down in paragraph (1).

(6) The party who requested the appointment of the guardian *ad litem* shall advance the costs and the remuneration of the guardian *ad litem*.

(1a) Access to files to be inspected at request shall be ensured by the Hungarian Intellectual Property Office subject to the personal appearance of the person requesting it.

(2) Beyond the cases covered by the Code of General Administrative Procedure, personal data not indicated in the trade mark register and not communicated in official information shall be excluded from inspection, unless the person concerned explicitly approved the inspection thereof or a third party is allowed access to documents containing personal data pursuant to the provisions of the Code of General Administrative Procedure.

The order concluding the proceedings and the decision approving the friendly settlement may be taken without a hearing.

(2) Following the written preparatory work, the Hungarian Intellectual Property Office shall hold a hearing if the applicant and the opponent must be heard together in order to clarify the facts or if the parties unanimously and in due time so request.

(5) The announcement of the decision shall mean the presentation of the operative part and the statement of reasons.

(6) Except if the Hungarian Intellectual Property Office deferred its announcement, the decision shall be drawn up in writing within fifteen days at most from the day it was made, and it shall be delivered within fifteen days from being drawn up in writing.

(b) non-use can be properly justified.

(2) A trade mark application shall not be rejected on the basis of an opposition in respect of which the furnishing of proof regulated under paragraph (1) was unsuccessful. If the holder of the earlier trade mark used the trade mark pursuant to paragraph (1) in relation to only part of the goods or services for which it is registered, it shall, for the purpose of the consideration of the opposition, be deemed to be registered only in respect of that part of the goods or services.

(2a) A trade mark application shall not be rejected on the basis of an opposition based on such earlier trade mark the protection of which no longer exists at the date of filing the trade mark application.

(3) If the opponent does not reply to the invitation referred to in paragraph (1), the notice of opposition shall be considered withdrawn.

### **Section 61/F**

Review of the order suspending the proceedings in such case [Section 77(1)] cannot be requested from the court separately, it may only be challenged in the request for the review of a decision on the registration of the trade mark. The order suspending the proceedings in such case shall, if necessary, specify the costs of the opponent arising until the suspension of the proceedings.

(3) If, in the course of trade mark registration proceedings, a decision refusing the application becomes final and binding, the opposition in respect of which the proceedings has been suspended shall be considered withdrawn. Otherwise the proceedings shall be continued on the basis of the opposition in respect of which the proceedings has previously been suspended.

### **Section 61/H**

(1) In the case of opposition, the trade mark application shall also be examined to ascertain, with due regard to the grounds of the opposition, whether the sign is not excluded from trade mark protection under Sections 4 to 7.

(2) A trade mark application shall be refused in whole or in part if it does not meet the requirements examined under paragraph (1).

(3) The losing party shall be required to bear the costs arising in connection with the opposition; the opponent shall not qualify as a losing party if under Section 61/G(3) the opposition shall be considered withdrawn.

(4) Upon request, the Hungarian Intellectual Property Office shall refund the opposition fee [Section 61/B(4)] to the extent and on conditions laid down by the law on fees for administrative services in industrial property procedures

(b) if, by dividing the list of goods or services, he claims protection for specified goods or services separately.

(2) Division shall be subject to the payment of a fee determined by the law on fees for administrative services in industrial property procedures and be paid within two months from the filing of the relevant request.

(3) If the fee for division is not paid upon filing the request, the Hungarian Intellectual Property Office shall call upon the applicant to rectify the irregularities within the time limit in paragraph (2). Failing to comply with the said notice, the request for division shall be considered withdrawn.

If the holder of the trade mark does not respond to the invitation of the Hungarian Intellectual Property Office within the fixed time limit, the Hungarian Intellectual Property Office shall decide on the request based on the information available to it, and without a hearing. The order concluding the proceedings or the decision approving the friendly settlement may also be taken without a hearing. Following the expiry of the time limit fixed by the Hungarian Intellectual Property Office for the requesting party, no grounds may be indicated as grounds for invalidity, which have not been stated as such within the time limit referred to. When the decision concluding the proceedings is taken, grounds so indicated shall not be taken into consideration.

(2) If the request for a declaration of invalidity is based on conflict with an earlier trade mark of the requesting party, at the request of the holder of the later trade mark filed in due time, the Hungarian Intellectual Property Office, provided that at the filing date of the request for a declaration of invalidity the five-year period following the registration of the earlier trade mark has expired, shall invite the requesting party to furnish proof that

(a) during the five-year period preceding the filing of the request for a declaration of invalidity he put his own trade mark to genuine use as provided in Section 18 in connection with the goods or services in respect of which it is registered, or

(b) non-use can be properly justified.

(2a) If the five-year period for commencing genuine use of the earlier trade mark prescribed in Section 18(1) to (3) has already expired on the date of filing of the later trade mark, or in the case of claiming priority on the date of priority of the later trade mark, the requesting party shall, in addition to those under paragraph (2), furnish proof that

(a) during the five-year period preceding the filing date of the later trade mark application or its date of priority he put his own trade mark to genuine use as provided in Section 18, or

(b) non-use can be properly justified.

(3) A trade mark application shall not be declared invalid on the basis of a request for a declaration of invalidity in respect of which the furnishing of proof regulated under paragraph (2) to (2a) was unsuccessful. If the holder of the earlier trade mark used the trade mark as provided in paragraph (2) to (2a) in relation to only part of the goods or services for which it is registered, it shall, for the purpose of the consideration of the request for a declaration of invalidity, be deemed to be registered only in respect of that part of the goods or services.

(4) If the requesting party does not reply to the invitation referred to in paragraph (2), the request for a declaration of invalidity shall be considered withdrawn.

(5) The decisions taken in the course of the hearing shall be announced on the day of the hearing; in respect of the substantive decision, the announcement may be deferred for not more than eight days if it is indispensable due to the complexity of the case. In such a case, the date for announcement shall be set immediately, and the substantive decision shall be put into writing until the day of announcement.

(6) The announcement of the decision shall consist of the brief presentation of the operative part and of the grounds.

(7) The decision shall be put in writing within not more than fifteen days from the day it was taken, except where the Hungarian Intellectual Property Office deferred its announcement, and it shall be delivered within fifteen days from putting it in writing.

### Section 73/A

(1) At the request of any party, invalidity proceedings shall be accelerated if court action for trade mark infringement was brought, or a request for provisional measures was filed before submitting a statement of claim and this fact is substantiated.

(2) For the request for accelerated procedure, a fee determined by the law on fees for administrative services in industrial property procedures shall be paid within one month from the filing of the request.

(3) If the request does not comply with the requirements referred to in paragraph (1), the party requesting accelerated procedure shall be invited to rectify the irregularities or to submit comments. The request for accelerated procedure shall be rejected if, despite the rectification of the irregularities or the comments, it does not comply with the requirements laid down in the Act. If the party filing the request for accelerated procedure does not reply to the invitation within the specified time limit, the request shall be considered withdrawn.

(4) If the fee for the request has not been paid, the requesting party shall be invited to make payment within the time limit specified in the Act. Failing that, the request for accelerated procedure shall be considered withdrawn.

(5) The Hungarian Intellectual Property Office shall order the accelerated procedure by means of an order.

(6) By way of derogation from the provisions of Sections 41 and 73, in the case of accelerated procedures

(a) a time limit of fifteen days may be set for rectifying the irregularities or submitting comments;

(b) an extension of time limits may be granted only in particularly justified cases;

(c) the Hungarian Intellectual Property Office shall only hold an oral hearing if the clarification of the facts requires that the parties be heard together or if any of the parties so requests in due time.

### Section 74

(1) If there is more than one request for a declaration of invalidity of the same trade mark, they shall be dealt with in the same proceedings if possible.

(2) If the request for a declaration of invalidity is withdrawn, the proceedings may be continued *ex officio*, except for the case under Section 72(2). In such a case, the Hungarian Intellectual Property Office shall also proceed within the bounds of the request, taking into consideration the statements and allegations made by the parties earlier. In the case referred to in Section 72(2), settlement may be reached in the invalidity proceedings.

(3) The losing party shall be required to bear the costs of the invalidity proceedings. If the holder of the trade mark has not given any reason for the invalidity proceedings, and he surrenders the trade mark protection, at least in respect of the concerned part of the list of the goods or services, with retroactive effect to the date of filing prior to the expiry of the time limit for submitting comments [Section 73(1)], the costs of the proceedings shall be borne by the requesting party.

(4) The declaration of invalidity of the trade mark or the limitation of trade mark protection shall be recorded in the trade mark register, and official information shall be published in the official gazette of the Hungarian Intellectual Property Office.

## ***Revocation for non-use, loss of distinctive character or having become misleading***

### **Section 75**

(1) Any person may institute proceedings for revocation of trade mark protection due to non-use under Sections 18 and 34, due to loss of distinctive character or becoming misleading under Section 35 against the trade mark holder.

(2) The application shall indicate the data specified in Section 38(2b), the grounds for revocation, and documentary evidence shall be attached. Where revocation is requested pursuant to Section 30(2) with retroactive effect to a date which is earlier than the dates specified in Section 30(1)(d) or (e), it shall be indicated in the request. If revocation is requested for non-use, the burden of proof shall be on the holder of the trade mark that his use of the trade mark satisfied the requirements of Section 18. The application – if it is not aimed at the revocation of the trade mark as a whole – may also be directed at part of the list of goods or services of the trade mark.

(3) A fee determined by the law on fees for administrative services in industrial property procedures shall be paid for the request for revocation within two months from the filing of the application.

(4) If the request for revocation does not meet the requirements laid down in this Act, the requesting party shall be called upon to rectify the irregularities; if the fee for the request has not been paid, the requesting party shall be invited to make payment within the time limit prescribed by this Act. Failing to comply with these requirements, the request for revocation shall be considered withdrawn.

### **Section 76**

(1) The Hungarian Intellectual Property Office shall invite the holder of the trade mark to submit comments on the request for revocation, and then – if the holder of the trade mark responds to the invitation within the fixed time limit – following the written preparatory work, it shall decide at a hearing on the revocation of trade mark protection, in whole or in part, for non-use, loss of distinctive character or having become misleading, or on the rejection of the request. If the holder of the trade mark does not respond to the invitation of the Hungarian Intellectual Property Office within the fixed time limit, the Hungarian Intellectual Property Office shall decide on the request based on the information available to it, and without a hearing. The order concluding the proceedings may also be taken without a hearing. Section 73(5) to (7) shall apply to the delivery, putting in writing and service of the decisions taken in the course of hearings.

(2) If there is more than one request for revocation of the same trade mark, or there are requests for both the declaration of invalidity and the revocation of the same trade mark, they shall be dealt with in the same proceedings, wherever possible.

(3) If the request for revocation is withdrawn, the proceedings may be continued *ex officio*. In such case as well the Hungarian Intellectual Property Office shall also proceed within the framework of the request, taking into consideration the statements and allegations made by the parties earlier.

(4) The unsuccessful party shall be required to bear the costs of the proceedings for revocation. If the holder of the trade mark has not given any reason for the proceedings for revocation and he surrenders the trade mark protection, at least in respect of the concerned part of the list of the goods or services, with retroactive effect to the date of filing prior to the expiry

of the time limit for submitting comments under paragraph (1), the costs of the proceedings shall be borne by the requesting party.

(5) The revocation of trade mark protection, in whole or in part, due to non-use, loss of distinctive character or becoming misleading shall be recorded in the trade mark register and official information thereof shall be published in the official gazette of the Hungarian Intellectual Property Office.

(2) The international registration effected on the basis of an application designating Hungary shall result in protection, from the date laid down in paragraph (1), to the same effect as the registration under Section 64, provided that the Hungarian Intellectual Property Office does not refuse protection of the sign extended to Hungary or withdraws the refusal under Article 5(1) and (2) of the Protocol.

(3) The provisions relating to applications designating Hungary shall apply accordingly for subsequent applications for the extension of protection to Hungary resulting from international registration.

In the notification a time limit of at least three months shall be fixed for submitting comments; the time limit may be extended at a request filed before its expiry.

(5) If the applicant does not reply to the invitation within the fixed time limit, the Hungarian Intellectual Property Office shall notify the International Bureau, except when paragraph (5a) is applicable, that the protection of the trade mark extending to Hungary is refused (final refusal), or that protection is only partially recognised by the Hungarian Intellectual Property Office. The Hungarian Intellectual Property Office shall send such notification to the International Bureau after the decision on final refusal or on partial recognition of the protection has become final and binding. If trade mark protection is recognised in part, the date of registration shall be the date of the decision.

(5a) If the applicant fails to reply, within the fixed time limit, to an invitation of the Hungarian Intellectual Property Office issued solely upon an opposition, the Hungarian Intellectual Property Office shall decide on the registration of the trade mark on the basis of the available information, and shall notify the International Bureau accordingly, sending either a notification on the final refusal or a notification made in accordance with paragraph (5e).

(5b) If the applicant replies to the invitation, the Hungarian Intellectual Property Office shall continue the substantive examination and shall decide on the registration of the trade mark on the basis thereof. If the trade mark application is to be refused on the basis of the substantive examination [Section 61(4), Section 61/H(2)], the Hungarian Intellectual Property Office shall notify, after the decision on it has become final and binding, the International Bureau that the protection of the trade mark extending to Hungary is refused (final refusal).

(5c) If the Hungarian Intellectual Property Office does not issue any notice of provisional refusal and sends no notification to the International Bureau on the basis of paragraph (5d) either, the date of registration shall be deemed to be the first day after the expiry of the time limit prescribed for provisional refusal.

(5d) If the Hungarian Intellectual Property Office finds before the expiry of the time limit prescribed for provisional refusal that there is no ground for provisional refusal, it shall notify, without delay, the International Bureau of the recognition of the protection. The date of registration shall be deemed to be the date of the notification on the recognition of the protection.

(5e) If the Hungarian Intellectual Property Office revokes the provisional refusal in whole or in part after the substantive examination, it shall notify the International Bureau of the recognition of the protection in whole or in part after the decision on withdrawal has become final and binding. The date of registration shall be deemed to be the date of the decision on withdrawal.

(6) to (7) *[repealed]*

(8) By applying the provisions of Section 48 accordingly, the Hungarian Intellectual Property Office shall record in the trade mark register that under Article 4*bis* of the Protocol, the international registration has replaced the trade mark registered by the Hungarian Intellectual Property Office.

### ***Rejection of the effect of a transfer and of a licensing contract***

#### **Section 76/R**

In case of failure to comply with the above requirements the request for transformation shall be considered withdrawn.

(3) In other respects the provisions of Chapters VII to IX shall apply accordingly to requests for transformation; if, however, the international registration is cancelled after any of the registration dates specified in Section 76/P(5), or (5c) to (5e), the Hungarian Intellectual Property Office shall register the sign as a trade mark without applying the provisions of Sections 61 to 63. In this case, the date specified pursuant to Section 76/P(5), or (5c) to (5e) shall be considered the date of registration.

(11) The following data shall be indicated in the introductory part of the request for review:

## Chapter XII

### ***ACTIONS IN TRADE MARK MATTERS***

#### ***Rules governing actions in trade mark matters***

## Section 95

(1) The Budapest-Capital Regional Court shall have exclusive territorial jurisdiction in court actions brought for trade mark infringement, for the prohibition of the use of a trade mark by the representative or the agent or the transfer of the right to trade mark protection or of the trade mark protection, under Section 14, as well as for the prohibition of the use of European Union trade marks under Articles 137 and 138 and Article 209(5) of the European Union Trade Mark Regulation [Section 4(2)(ab)]. In such actions, the Budapest-Capital Regional Court shall sit in a panel composed as laid down in Section 78(2).

(2) In court actions brought for trade mark infringement, provisional measures shall be, until the contrary is rendered probable, considered necessary for a reason deserving special consideration under Section 103(1)(d) of the Code of Civil Procedure if the petitioner proves that the trade mark is protected, and he is the holder of the trade mark or a user entitled to take action against infringement in his own name.

(3) Paragraph (2) shall not apply if six months have already passed from the commencement of trade mark infringement or if a period of sixty days has already passed since the petitioner became aware of the infringement and of the identity of the infringer.

(4) In the event of trade mark infringement or a direct threat thereof, the request for provisional measures may also be filed before submitting the statement of claim, even in the absence of the additional conditions prescribed by the Code of Civil Procedure for provisional measures preceding the bringing an action. The Budapest-Capital Regional Court shall decide on the request for provisional measure filed prior to submitting the statement of claim. With the

derogations deriving from the particular features of non-contentious proceedings, the provisions of this Act and the general rules of the Code of Civil Procedure, as well as the general provisions of the Act on specific non-contentious court procedures shall apply accordingly to the non-contentious proceedings for provisional measures. If the requesting party has brought an action for trade mark infringement in accordance with paragraph (8), the amount exceeding the fee paid in the non-contentious proceedings shall be paid as the fee for the action.

(5) The holder of the trade mark or the licensee who is entitled take action against infringement, in addition to civil remedies applicable in the case of infringement, may request the court, with the same conditions that apply to provisional measures, to

(a) order a protective measure pursuant to the provisions of the Act on judicial enforcement, if he credibly demonstrates that later satisfaction of his claim for damages or for the surrender of the enrichment obtained by infringement is jeopardised;

(b) compel the infringer to communicate or present his banking, financial or commercial documents with a view to ordering the protective measure under point (a);

(c) order the lodging of a counter-security, if in return therefor, instead of demanding discontinuance of the trade mark infringement, he consents to the continuation by the infringer of the allegedly infringing activities.

(6) The court may order the lodging of a counter-security under paragraph (5)(c) even in the absence of a request to this effect, provided that the holder of the trade mark or the licensee who is entitled take action against infringement has filed a request for discontinuance of the infringement, and the court refuses to grant it.

(7) The court shall decide on the provisional measures with priority, in an order adopted within fifteen days from the filing of a request to this effect at the latest. The court of second instance shall decide on the appeal filed against the order on the provisional measures with priority, within fifteen days from the filing of the appeal at the latest.

(8) At the request of the party with opposing interests, the court shall set aside its order on provisional measures, including those under paragraphs (5) and (6), requested before the bringing of an action, if the requesting party has not brought, within fifteen days from the communication of such order, an action for trade mark infringement with respect to the claim enforced by the provisional measures. The court shall decide in an order on the request for setting aside the provisional measures with priority, within fifteen days from the filing of the request at the latest.

(9) If, in the course of the action for trade mark infringement, one of the parties has already provided evidence of reasonable extent, the court may, at the request of the party producing the evidence, require the party with opposing interests to

(a) present the documents and other physical evidence in his possession and to make inspection possible;

(b) communicate or present his banking, financial or commercial documents.

(10) Preliminary taking of evidence shall also be admissible before bringing proceedings for infringement if the holder of the trade mark or the licensee who is entitled take action against infringement has demonstrated to a reasonable extent the fact or danger of trade mark infringement. The court shall decide on the preliminary taking of evidence by an order and out of turn, at the latest within fifteen days from the filing of the request to this effect. An appeal shall lie against an order rejecting the preliminary taking of evidence; the court of second instance shall decide on the appeal filed against the order rejecting the preliminary taking of evidence by an order and out of turn, at the latest within fifteen days from the filing of the appeal. If court proceedings have not yet been brought, the request for the preliminary taking of evidence shall be filed with the Budapest-Capital Regional Court. The preliminary taking of evidence shall be conducted by the Budapest-Capital Regional Court.

(11) At the request of the party with opposing interests, the court shall set aside its order adopted on preliminary taking of evidence, if the holder has not brought an action for trade mark infringement within fifteen days from the communication of the order adopted on preliminary taking of evidence. The court shall decide on the request for setting aside the order adopted on preliminary taking of evidence with priority, within fifteen days from the filing of the request at the latest.

(12) Provisional measures, including those measures under paragraphs (5) and (6), may be taken without the party with opposing interests having been heard if any delay thereof would cause irreparable harm. Pursuant to Section 337(1)(b) of the Code of Civil Procedure, preliminary evidence may be taken without the party with opposing interests having been heard if any delay would cause irreparable harm, or the risk of the destruction of evidence is likely. Orders on provisional measures or ordering preliminary taking of evidence adopted without the party with opposing interests having been heard shall be communicated to the party immediately following their implementation. After communication of the order, the party with opposing interests may request to be heard or to have the amendment or the setting aside of the order on ordering provisional measures or the preliminary taking of evidence. If the request for provisional measures or ordering preliminary taking of evidence is rejected, the court shall communicate the order on rejection together with the request for provisional measures or ordering preliminary taking of evidence to the party with opposing interests.

(13) At the request of the party with opposing interests, the court may make the ordering of preliminary taking of evidence and, with the exception of paragraph (5)(c) and paragraph (6), of provisional measures subject to the provision of security.

(14) For the cases referred to in paragraph (5)(c), (6) and (13), the provisions of the Code of Civil Procedure on the provision of security shall apply accordingly, with the proviso that the court, beyond the judgment, may also rule on the matter of refunding or releasing the security or counter security in the order setting aside or pronouncing the cessation of the effect of the order on provisional measures or ordering preliminary taking of evidence.

(14a) In court actions on trade mark infringement the legal consequences laid down in Section 27(2) to (3) shall not apply in respect of the period when the grounds for revocation of trade mark protection existed based on this Act, provided that the defendant invoked this fact in his defence as to the merits.

(15) In all actions referred to in paragraph (1) and any other actions related to trade marks, the provisions of the Code of Civil Procedure shall apply with the derogations under Sections 80, 85 and 86(3) of this Act.

- (2) A geographical indication may not be granted protection if it conflicts with the name of an earlier, protected or other, plant variety or animal breed and as a result is likely to mislead consumers as to the origin of the product.

### ***Eligibility for protection, right to protection***
